Tomorrow Autos and Trucks Will Make Their Rounds of City

BAGS ARE NOW DISCARDED

These Are Found to Cause Loss of Time in Handling of Gifts to Red Cross

Be Ready Tomorrow for Paper Collectors

THE second collection of paper I in the paper-saving campaign, founded by the EVENING LEDGER for the Red Cross, will be made to

Do not use bags. Tie your paper securely with strong twine, because much difficulty has been experienced

from the use of bags.
You will greatly help the volunteer truck and automobile drivers if you tie newspapers in bundles of about fifty pounds each, magazines in separate bundles of about the same size and loose paper in as large and tight bundles as possible.

There is still a shortage of automobiles and trucks for the collections. A hundred or more pleasure cars and ten or fifteen motortrucks are needed for the collection a week from tomorrow, Every one should help spread news

of this campaign, as it can be made to pay the Red Cross from \$20,000 to \$100,000 a year from a source which would be waste ordinarily.

The second city-wide paper-saving campaign collection will be held temorrow. This collection will be started soon after 9 e'clock, so all who have saved paper for the Red Cross are urged to have it ready for the drivers of the trucks and automobiles when they arrive. They may be on hand at any time during the day.

The importance of having paper tied in bundles with strong twine should not be forgotten. Newspapers should be tied alone, magazines alone and loose paper alone. The idea of using bags, as previously announ has been abandoned owing to the added work of returning the bags.

If you tie your paper as suggested, you will save the time of the automobile and truck men. Their time is very valuable because there are not enough machines to cover every section of the city. Consequently the shorter their stops at each place the more territory they will be able to cover.

During the collection last Saturday a great many persons who had not sent in en the streets and gave them paper. Those who have not sent in their names can give paper to the drivers of trucks or automobiles. They can recognize machine. their names stopped trucks and automobile blies. They can recognize inachines which are collecting paper for the Red Cross from the fact that there is one Boy Scout with every pleasure car, and three Boy Scouts with every automobile truck. The Boy Scouts will be in uniform and many of

them will have bugies. The Vim Motortruck Company, manu facturers of the Vim truck, and the Federal Sales Corporation, Philadelphia agents for the Federal truck, have again volun-teered to send cars to assist with the col-lection. In addition to the trucks announced yesterday, Rand's Auto Company, Inc., Eighteenth and Market streets, will

furnished a Rand truck. A. Einsohn, dealer in fruits and mush-Chew street and Chelten avenue, Germantown, has volunteered the use of his truck for collections each Monday. This will take care of a territory which has been difficult to cover, owing to the fact that it was so far from the garages of the volun-

BOARDWALK "COP-ESS" TO WATCH FOR WINKS

Atlantic City's Policewoman Will Just Naturally Pinch Flirts

ATLANTIC CITY, May 18 .- Desk-fagged business men, unchaperoned during shore vacations, who find themselves unaccount-ably inclined to look a second time at unaccompanied women on the Boardwalk even to chance a flicker of the eyelid if the glance is returned, should hesitate. It will be the wiser course for them to stop, look and listen, Chief of Police Miller announced

He declined to describe her further than to say that she is young and knows her business thoroughly. A mere wink, Chief Miller said,

may be a ticket to City Hall.
