

KERENSKY BEGINS ARMY REBUILDING

Orders Restoration of Discipline and Severe Punishment for Deserters

PEASANTS AID REGIME

Cease Indiscriminate Land Division and Support Cabinet's Foreign Policy

By WILLIAM G. SHEPHERD

PETROGRAD, May 29.—The Lloyd George of Russia—Minister of War Kerensky—began today the supreme test of his own career and that of his Russia. His new orders to the army, restoring discipline by authorization for punishment of offenders, including penal servitude for deserters, became effective in the orders of the day.

A popular idiom throughout all Russia, Kerensky is staking all on his ability to unite Russia's army into fighting. If the new provisional government is strong enough to back him up, his supporters believe, he will cementing Russia into a cohesive, united force.

In the meantime signs multiply that the peasants, whose initial insistence on division of the land had for a time threatened the internal safety of the Government, are realising more and more the necessity for unity of action. The peasants' congress in session today rejected almost unanimously a resolution demanding immediate publication of all treaties signed by the old regime in Russia and in emphatic terms voiced disapproval of fraternization of Russian troops with the enemy.

The decision not to proceed for publication of the "secret treaties" is in strong support of the Government, which has maintained that such action should not be taken without consultation with Russia's allies, although it favored in general the publication of all future compacts by the new regime.

Kerensky is still at the front, exhorting the troops to fight. A new order issued by him was published here today. It pleaded for total abstinence from liquor in the army.

It is less soldiers abstain from consumption of stores of liquor which they discover New Russia will be submerged in a pool of alcohol and other contraband, Kerensky declared. "I demand that the use of alcohol by soldiers and officers be prevented."

KERENSKY'S ASSAILANT ADJUDGED LUNATIC

NEW YORK, May 29.—The man who recently attempted to assassinate A. F. Kerensky, Russian Minister of War, has been adjudged a lunatic and confined to an asylum, according to a cablegram to the Jewish Daily Forward today from its Petrograd correspondent. Assailant of Kerensky proved to be a lunatic and confined to an asylum, according to a cablegram said. "Other cases in connection with assault dismissed, as no organized plot discovered."

Austrian Wing Falter; Duino Seems Doomed

Continued from Page One pieces with big guns before the infantry can be sent up the bullet-swept slopes. The artillery duels along the Isonzo River front are increasing in violence as a result of the arrival of fresh Austro-Hungarian batteries from the Russian front. It is estimated that the Austro-Hungarians have from 400,000 to 500,000 along the narrow strip from the Plava mountain sector to the Adriatic Sea.

FRENCH GUNS THUNDER ON CHAMPAGNE FRONT

PARIS, May 29.—Resumption of a violent artillery fire along a great part of the Champagne front, forecasting possibly a renewal of French offensive operations in that sector, was announced in today's official statement. The Germans heavily shelled French positions in the Hurtubise region and launched two heavy attacks, but these were beaten off, with the French retaining their hold on all positions.

Around Verdun, the War Office said, a small post north of Vacheraville had been carried. Yesterday seven enemy aeroplanes were brought down, destroyed, and twelve others were disabled and forced to alight.

BRITISH RAID ENEMY'S LINES AT PLOEGSTRAETE

LONDON, May 29.—Activity on the British front today was confined to mutual cannonading and scattered raiding, according to Field Marshal Haig's report. Southwest of Lens and west of Messines the British commander-in-chief reported driving off of hostile raiders. In Ploegstraete wood, he said, British forces carried out successful raids. In the neighborhood of Bullecourt and on both banks of the Scarpe the enemy's artillery was active at night.

EDITORS TO AID DRAFT

Promise New Jersey Governor to Give Publicity to Registration

TRENTON, N. J., May 29.—Governor Edge and Adjutant General Barber conferred with about fifty newspaper editors and publishers at the State House relative to co-operation with the State officials in giving the widest publicity to the object of registration day, June 6, and to arouse the people to a realization of the seriousness of the situation.

The Governor said, he wanted to strike no note of fear, but he wanted the press to aid him in bringing home to the citizen a knowledge of their responsibility. He asked the press to make a drive, both editorially and through the news columns, from the present time until registration day, to arouse the State's citizenship to a sense of the importance of the day. The newspaper men promised to do all in their power to make New Jersey's enrollment successful in every way.

ZAPATA REVOLUTION FAILS

Chiefs Surrender With Bands, but Leader Is Holding Out

MEXICO CITY, May 29.—The Zapatist revolution, after years of warfare in Mexico, has broken down. Many chiefs in isolated districts have surrendered with their bands.

However, representatives of Zapata himself, who are now in Mexico City, declare that the rebel chief will not surrender except on condition that his army be amalgamated with the Carranzista army. It is regarded as doubtful if the Government will accept this condition.

Negro Killed Resisting Arrest

ALTOONA, Pa., May 29.—James Curry, thirty years old, a negro quarryman, of Clover Creek, was killed while he was resisting arrest on the charge of assault and threat. Neighbors had sworn out a warrant and when officers called at his home he fled. He was overtaken and as the handcuffs were being adjusted broke away. Two shots were fired, one bullet taking effect, and Curry dropped. He was dead when the police came up.

FRENCH HERO NOW A MAJOR Captain Charles Sweeney, of the French army, known as Sweeney of the Foreign Legion, has been commissioned a major in the United States army and will be detailed to duty at the officers' training camp, Fort Myer, Va.

CRITICIZES IMMIGRATION OF MEXICAN LABORERS

Representative Burnett Raps Secretary of Labor for Letting Down Immigration Bars

WASHINGTON, May 29.—Secretary of Labor William B. Wilson was today sharply criticized by Representative Burnett, of Alabama, chairman of the Immigration Committee, for his recent interpretation of the immigration law permitting Mexican laborers to enter the United States for farm work in the border States. At the same time Mr. Burnett announced that the immigration bars would not be let down to permit the entrance of Asiatic coolies.

Representative Burnett, told Secretary Wilson, in a letter, that he has overstepped his authority and has assumed powers that were in no way granted to him by the law. "You have established a dangerous precedent," the cabinet officer was told.

Jersey G. A. R. to Meet at Asbury Park ASBURY PARK, N. J., May 29.—The New Jersey encampment of the G. A. R. will hold its fiftieth annual campfire and business session in this city on June 13 to 15. The meetings will be held at the Arcade. The Woman's Relief Corps and the Ladies of the G. A. R. will be in session at the same time.

ANDRASSY IS NAMED HUNGARIAN PREMIER

Leader of Opposition Succeeds Reactionary Tisza—Asked to Form Cabinet

VIENNA, May 29.—It is learned here today that Emperor Karl of Austria has requested Count Andrássy to organize a cabinet. Count Andrássy is the leader of the opposition in the Hungarian Parliament.

The appointment of Count Andrássy as Hungarian Premier, to succeed Count Tisza, who resigned recently, emphasizes the victory won by the opposition in Hungary over the reactionary forces in Budapest and Vienna and the obedient supporters of the policy of German domination in Austria. Count Andrássy and Count Apponyi, his colleague in the Hungarian nationalist movement, were summoned by Emperor Karl for an audience, immediately after the resignation of Count Tisza. Berlin's most trusted tool in the dual empire. At that time the EVENING LEDGER stated that one of the two Hungarian patriots would be asked to assume the premiership. Together with Count Michael Karolyi, Count Andrássy and Apponyi are the leading spirits in the Hungarian nationalist movement, a movement that is characterized by its demands of ultimate autonomy for Hungary. The assumption of the premiership by Count Andrássy may, therefore, be regarded as a victory of no mean importance for the democratic forces in Hungary and a portent of still more significant things to come.

ENVOY GUTHRIE'S BODY ARRIVES IN PITTSBURGH

Home City Pays Honor to Dead Ambassador—Mayor and Officials Meet Party

PITTSBURGH, May 29.—The body of George W. Guthrie, former Ambassador to Russia and former Ambassador to Japan, who died recently in Tokio, arrived in Pittsburgh on a special train from San Francisco today.

Accompanying the body were Mrs. Guthrie and other members of the Guthrie family and representatives of the State, Army and Navy Departments. Mayor Armstrong, with other city officials, met the funeral party in the station. A band of police and firemen acted as an escort of honor when the body was taken to undertaking rooms. The body will lie in state in the Soldiers Memorial Hall tomorrow afternoon. Japanese Ambassador Sato will come from Washington to attend the funeral services on Thursday.

Explosive Plant Victim Dies

HUNTINGDON, Pa., May 29.—Enoch Galloway, forty-nine years old, of Baltimore, died in Blair Memorial Hospital, Huntingdon, as a result of injuries suffered at the plant of the Acme Explosives Company, May 17. Galloway accidentally inhaled the fumes of air dried in manufacture of gun cotton and powder.

I SOLDATI D'ITALIA SUI FIANCHI DELL'HERMADA

Violenti Contrattacchi Austriaci Respinti dalle Truppe del Generale Cadorna Dappertutto

LA MARCIA SU TRIESTE

Le Batterie Italiane da Campagna Marciano con la Fanteria e Spesso la Precedono

ROMA, 29 Maggio

Il generale Cadorna annuncia oggi di avere attaccato le posizioni austriache nel settore di Plava, riacciandoli in una piccola vallata ad est di Globna. In questa operazione le truppe italiane hanno preso un centinaio di prigionieri. A tutto ieri il generale Cadorna aveva preso circa 24,000 prigionieri dal 14 corrente, quando egli iniziò il suo attacco su Cucco, ed aveva conquistato trentasette cannoni di cui tredici di grosso calibro.

ROMA, 29 Maggio

Il generale Cadorna ha portato la battaglia alle porte di Duino. La sua artiglieria già sconvolge le linee che difendono questo villaggio sulla strada Monfalcone-Trieste. Ma Duino è conquistata dopo avere espugnato l'Herzada, giacché la difesa di Duino è appunto questo gruppo di colline.

Tutti i furiosi contrattacchi austriaci contro le nuove posizioni italiane di San Giovanni, sulle falde dell'Herzada, sono stati respinti e gli italiani hanno potuto mantenere ogni palmo del terreno conquistato. I combattimenti di ieri hanno avuto l'effetto di consolidare le posizioni prese da Cadorna nelle giornate di sabato e domenica.

I prigionieri austriaci dichiarano che l'artiglieria di Cadorna e quella inglese hanno demoralizzato le truppe del generale Conrad. I violentissimi bombardamenti subiscono gli austriaci prima che essi siano attaccati dalle fanterie. Le grosse artiglierie sono attivissime specialmente nel settore di Jamiano dove i pezzi italiani sono stati impegnati in una violenta battaglia con "skoda" austriaci, con questi stessi cannoni che hanno servito ai tedeschi per ridurre le fortezze del Belgio e della Francia e quelle della Russia.

I critici militari si mostrano giubilanti per il risultato ottenuto dal generale Cadorna, ma si astengono dal fare predizioni circa quando Trieste potrà cadere. Quello che è più importante è che gli italiani sono in condizione ora di poter continuare la loro offensiva per tutta l'estate.

Si calcola che gli austriaci hanno schierato tra Plava ed il mare da 400 a 500,000 uomini con numerosa artiglieria parte della quale tocca alla fronte della Russia.

Ecco il testo del bollettino ufficiale del generale Cadorna pubblicato ieri sera dal Ministero della Guerra.

Sulla fronte Giulia, sebbene le condizioni atmosferiche non siano state favorevoli le nostre truppe hanno esteso

le loro posizioni nella giornata di ieri, domenica, ed hanno consolidato quelle prese antecedentemente.

Sul Carso, dopo una efficace preparazione di artiglieria, altre formidabili organizzate truppe ad est ed a sud-est di Jamiano sono state prese al nemico. Il fiume Timavo è stato attraversato ed il villaggio di San Giovanni, a nord-ovest di Duino, è stato occupato dalle nostre truppe. Noi abbiamo catturato in questa operazione nove cannoni da 149 millimetri di tipo modernissimo ed in eccellenti condizioni.

Nella zona di Gorizia ieri sera due successivi violenti attacchi contro le nostre posizioni nel settore del Vodice e sulle alture ad est della città sono stati respinti.

Ieri sera il nemico bombardò con insidiosa violenza le nostre posizioni sulla Quota 124, a sud di Gorizia. Poco dopo forti colonne di fanteria nemica venivano lanciate contro queste nostre posizioni ed in un punto riuscivano a penetrare nelle nostre linee. Le nostre truppe si lamiarono immediatamente ad un vigoroso contrattacco, cacciarono il nemico dalle nostre linee e gli presero 168 prigionieri, tra cui tre ufficiali.

Aeroplani nemici hanno bombardato località del Basso Isonzo, causando poche vittime. Un'altra incursione aerea il nemico fece su Chiassofero senza causare danni né vittime.

I corrispondenti del Times di Londra così telegrafano al suo giornale dalla fronte italiana.

"I nostri alleati sono sulle falde dell'Herzada. Al di là di Medeazza e prima di raggiungere il picco più alto del Querceto, 323 metri, vi è un burrone che separa le due quote. Gli italiani sono ora sull'orlo

di questo burrone, e sono sul posto più adatto per l'assalto finale e decisivo.

"Nessuno può dire quando questo assalto finale si avrà. Un'avanzata di due miglia tra il Carso ed il mare impone naturalmente una pausa, giacché molti dei grossi calibri italiani che hanno reso possibile l'avanzata della fanteria sono ora troppo indietro. Ma essi vengono portati innanzi rapidamente, e più rapidamente possibile, giacché il generale Cadorna vuole espugnare l'Herzada al più presto e occupare Duino. Ad ogni modo i pezzi italiani da campagna parlavano il loro linguaggio mortale ieri da posizioni dove quattro giorni fa erano in posizione cannoni austriaci.

"Ieri vidi cannoni italiani da campagna andare ad occupare posizioni che erano sotto il fuoco violentissimo delle batterie austriache, e con uno slancio che sarebbe impossibile descrivere. Pareva che una simile manovra fosse impossibile, e quando vidi quei cannoni raggiungere le posizioni che erano state loro assegnate ed audacemente aprire il fuoco sugli austriaci e sulle batterie austriache di grosso calibro, non potetti trattenermi dall'applaudire. I cannoni italiani, sembra incredibile, marciavano con la fanteria, qualche volta la precedono al galoppo, un galoppo che sembra diretto verso la morte. Eppure galoppavano verso la vittoria."

POSTS FOR PENNSYLVANIANS

Assistant Engineers of Geodetic Survey Bureau Named

WASHINGTON, May 29.—These Pennsylvanians were appointed to the Coast

and Geodetic Survey Bureau, as assistant engineers: Nicholas Hunter Heck, Andrew Bradd, Frank Spaulding Borden, Harry Leopold, Lyman Davis Graham, Andrew Caruthers Witherspoon.
