Leonard, Baseball Umpire

President Tener, of the National League, according to unconfirmed reports, is hot on the trail of Bennewiffred for the purpose of signing the champion as umple in his circuit. Leonard umpired a hall game in New York on Sunday and his decisions astisfied both sides—not a runble was heard throughout the game. Tener's idea, this same anconfirmed report sates, is to have Leonard umpire the Giants' caones for the remainder of the same of the disasting of the satisfied with all rulings and will not have to be suspended any more for singeing an official.

THEM that has, gits," as a bucolic phil-Losopher was wont to say, held good for Result Wagner when he was coaxed back to the fold of the Pittsburgh Pirates, and the same also can go for Jesse Wilworld's heavyweight champion. As a man who likes to box, the Kansan is the greatest circus performer that ever apwared under the canvas. And now we god Willard a regular, real, honest-to-goodness, "himself in the flesh" guy of the test: Jess owns a whole circus all by him-

The reason Willard came into his own tas the fact that he was about to be used this week. Jess was to have the fired this week. Jess was to have the fired this week. Jess was to have the fired this week. Jess was to have the circus with which he had been traveling for two with which he had been traveling for two pars. That the champion no longer was a straction evidently was the reason Jess was to be released. He had ceased to bring in the long green to the boxoffice wagon. is to be released. It is the bexoffice wagon, the leng green to the bexoffice wagon, at so one wanted a guy around who euldn't bring in the mazuma.

Owners Are Canned

But before Willard had been given his pink slip" he had to be reckoned with—sid he was. Rather than give up the life of a circus man, to which he was born, the big fellow was willing to give up good money—and a lot of it. Thus came about the selling of Buffalo Bill's Great Wild West Show. Jess, according to a report from Holyoke. Mass, last night, separated bimself from a cool hundred and five thou, and then the papers were signed.

Thus, instead of the circus owners discurging Willard, the owners were the ones to be discharged.

The advent of Willard as a circus impressatio means the retirement of Jess as a locar. The fighting game never was messat for the Kansan; ne's too negative, selld and easy-going; only a big, good-satured giant. Too big for any human being or near human being to beat, williard could so along and defend his the successfully for many years to come, but he just naturally doesn't like to fight. Pighting instinct wasn't born in him.

Whether Jess will continue his "two-aday performance of boxing with Walter Moschan, who aided Williard to get in shape when he "returned the heavyweight cown to the white race," remains to be seen. If he does what is expected Williard will have the spotlight taken off him estirely and settle down to count the many earlies that crowd through the turnstiles. that crowd through the turnstiles Jess's heard of the filthy stuff already is tucheavy, but his love for the circus will enable him to grab off a lot more of the
