The report, which would nil pages of the

Evening Labour judging from the advance copy in my possession, is a record of horror, of destruction, of devastation, of cruelty, of murder by methods almost incredible. I take from it six instances as typical of the whole and translate them below. I

have not chosen the most atroclous because it would be impossible to print their details in any newspaper. I have but culled hap-

hazard, among many, an average six.

They form alone a damnable indictment against Germany and the armies of her Emperor. Coming in judicial form, in other than the hot blood of indignation that per-

Their recording has been made calmly for addition to the archives of the French re-public, by men of honor and high standing. Proof absolute of each and every instance in the record is at the disposition of any individual who wishes it, and to that end, at least so far as the following six are con-

Evidence of a great split between the two Republican factions came today on the trail of the Salus bill controversy, in which the measure which would make possible immediate co-ordination of the Frankford L and the Market street subway was carried away from the House of Representatives at Harrisburg by Representative Max Aron, a follower of David H. Lane, and its passage imperiled thereby.

Defiant statements were issued by both

Defiant statements were issued by both factions today, while political followers rallied to their respective standards.

"Since the transit company insists upon making this a political issue, I accept it as such, and will fight the battle as the agent of the people," said Mayor Smith in a formal statement. He added that he would go to Harrisburg Monday to aid the bill, which cannot be reported out of committee until that day.

"TOMMYROT," SAYS LANE

"Tommyrot," said Mr. Lane, in a flery challenge. "This bill is highway robbery. You tell 'Tom' Smith that I am as ready to fight the transit company as I am him, if they should attempt to rob me. I mean to fight to a finish any such attempt to rob me, no matter who makes it."

In addition, it was learned that Republican workers in the Fifth and Twentieth Wards will be served with an ultimatum ordering them to declare themselves for or ordering them to declare themselves for or against the administration in transit and other matters. There were rumors of reprisals on officcholders. The Fifth Ward is the home of Representative Isadore Stern, chairman of the committee in charge of the bill; the Twentieth Ward is the stronghold of "Uncle Dave" Lane, the warhorse of the Republican party in the city. In both wards there are numerous office-holders under the Mayor.

"We are on the firing line" and Learn

"We are on the firing line," said Joseph P. Gaffney, chairman of Councils Finance Committee, after a conference with the Mayor. 'I stand with the Mayor. I believe with him that the people are entitled to a square deal and you can say for me that

they will get it."
Thomas E. Mitten, president of the Philadelphia Rapid Transit Company, declined to make a statement when shown the Mayor's charge of political warfare. Ellis Ames Ballard, counsel for the company,
