

UNIFORMITY IN PRICES OF STOCKS IS LACKING IN WALL STREET TRADING

Shares Score Brisk Advances, While Others Sustain Severe Losses—Speculative Buying Boosts Steel Common

There was a lack of uniformity in the forenoon about price movements of the stock exchange, with some stocks making brisk advances while others sustained severe losses. Concentrated buying from a number of speculative groups in United States Steel common made that stock advance 2 points to 12 1/2 the close yesterday.

Other steel stocks, including Crucible Steel, Baldwin Locomotive and Republic, all showed a strong tone, and they were followed on an early upturn by Pittsburgh Coal, which advanced more than 2 points to 37 1/2.

The weakness in this stock was the cause of a good deal of speculation, with the boardroom generally taking the view that its decline foreshadowed a dividend reduction in August. Directors of the company decline to make any definite statement in regard to the dividend outlook.

New Haven was another weak feature, falling more than 2 points to 37 1/2, the lowest point touched since it made its high record of 12 1/2 in 1915.

The street has apparently gone as far as it cares to in accumulating stocks on the assumption that rate advances would be approved by the commission.

INACTIVITY IN PRINT PAPER CASE DRAWS REED'S IRE

Senator Introduces Resolution Calling on Trade Commission to Explain Delay

WASHINGTON, June 27.—Immediate consideration of a resolution calling on the Federal Trade Commission to report why it has not brought to an end unfair trade practices in the paper industry was asked for when the Senate met today. Senator Reed, of Missouri, who introduced the resolution, said: "The Government of the United States is a large consumer of news print paper, and as such, is the victim of the illegal combination, practices and extortions afore-said."

ROOMMATES IN FIGHT OVER DISAPPEARING \$22

Prince Reed has disappeared, leaving a trail of suspicion behind him. The police court, on questions—James A. ...

admitted that while Alexander had written he intended shooting himself, he gave no reason. He does not believe that Alexander's supposed fear of being considered a deserter prompted him to conclude to end his life. "Even though he had been scolded as a deserter," said Lieutenant Colton, Alexander knew that he could have returned to the ship and stood trial. Had his reasons for leaving the ship been good the charges probably would have been dismissed.

RED CROSS CABLES MILLION TO PERSHING

National Committee Disburses Part of Nation's Great Gift

WASHINGTON, June 27.—The nation's contributions to the Red Cross in response to the call for a \$100,000,000 war fund were estimated at \$114,000,000 by Henry P. Davison, chairman of the Red Cross war council. His statement follows:

"Local chapters of the Red Cross are entitled to retain for their own work 25 per cent of the total amount collected, but it is very evident that the national Red Cross will have a generous fund with which to begin its tremendous task."

"The result, which has been achieved is indeed gratifying. Never before in the history of the world was such a fund for the relief of human suffering raised by voluntary subscription in so brief a period. "This result was made possible by surprisingly generous contributions in many communities. The most inspiring, indeed the most extraordinary feature of the campaign has been the number of contributors, as well as their wide geographical distribution. Many millions of our people, representing every part of the country, have responded to the call for help to give to the Red Cross in its efforts to accomplish results with the large resources with which it has now been supplied. It is gratifying to see that the fund has been developed and which we hope promptly to carry into execution are the following: "First and foremost we shall provide, as we may be called upon by the army and navy, for the care and safety of our soldiers and sailors wherever they may be. To this end, the Red Cross Commission may take over administration of American relief work in France. Major Grayson H. P. Murphy, head of the Federal Council of War Relief, appointed by General Pershing a member of his staff, and the Red Cross has appropriated Major Murphy's cabinet request for \$1,000,000 to take care of the needs of the American soldiers and sailors in the front lines. The Red Cross has also agreed to supply the Red Cross dispensaries in each of their important support cities—a measure of great urgency and need. "We shall send to Russia a commission of some twenty experts, under the leadership of Mr. Frank Billings, of Chicago, to study the needs of the Russian people. "The war council of the Red Cross is deeply sensitive of its very grave obligation to administer with all wisdom and foresight which can be mustered into service the very large sum of money intrusted to it. "Our policies and plans will be made known as they are developed. It will be our purpose to conduct all our work with the utmost publicity and to take the public into complete confidence in our administration. The Red Cross belongs to the people and the war council wants the public to understand the seriousness with which it regards the trust which has been committed to it."

Deaths

ALGARD.—Suddenly, June 25, MAMIE, daughter of late Jeremiah and Susan A. Algard, 27, of 1212 N. 22nd St., Philadelphia, Pa. Buried at Woodlawn cemetery, Philadelphia, Pa., June 27, 1917.
