Players Here Think Competitions Will Benefit Red Cross and Improve Health

INTEREST NOT LACKING

Thousands of tennis players are of one epinion regarding the present season in national lawn tennis affairs. They agree that all tournaments should be held, prizes or no prises, titles omitted. They claim that the ments to be derived by tennis competi-Hons are many, that the financial returns will go to the Red Cross.

will go to the Red Cross. Nothing is to be gained by discontinuing play. Contestants would be engaged in other fields of the service for those who are eligible for Government work and who think they can be of use have already re-sounded to the call. Why therefore de-prive others of the right to engage in this memous athletic exercise, they argue? The argument that tennis tournaments ful to attract and have been less interest-ter this year than in past seasons is con-

fail to attract and have been issue its con-ing this year than in past scasons is con-urary to fact. The entry list has not in-duded some of the stars, to be sure, but new winners have come to the fore and the interet maintained. The spectators have been fust as numerous and the entry list as large as in former seasons.

Red Cross Fund Benefits

Red Cross Fund Benefits In addition to the benefits derived from a physical standpoint, the Red Cross fund has been considerably increased by the tends donations. If for no other reason, the tends tournaments are "doing their bit" in swelling the fund of this noble cause. There is no harm to competitive tends at any time, but there seem to be many reasons why it should continue. This week the leading players in the East are taking part in the Fark Club tourna-ment for the Great Lakes' honors at Buffalo. N.F. Starting pext Saturday will come

oss Breaks Record in Mile Swim

Jackson's Mistake Willie Jackson's desire to be a knockout artist is proving a great handicao in his boxing recently. Before he stopped Dundee Jackson was as clever and shifty a boxer as over stepped into the ring, but since putting pundee to sleep Willie evidently has for-gotten his science and he is trying to finish his bouts with a haymaker. Eddie Wallace, of Brooklyn, sprang a sur-rise in Boston Tuesday night by getting a referee's decision over Jackson in a twolve-nond bout. While Willie was trying his ut-most to knock out Wallace, the hatter wont along winning on points. The same was true in his bout with Dundee, as Jackson stood a better chance of outpointing the Italian than stopping him. When Willie boxed Johnny Mealy here there were many ring-siders who thought Mealy was the winner, wen though the Philadelphian suffered a ninesseond knockdesw. Massen became famous over night by his one-round knockout over Dundee, but the discovery of his knockout wallop evi-dently will prove his failure to win many boats owing to his dealtre to connect with a sleep-producing right-hander, instead of mising the wallop with left jabs. in his superiority. Johnny Rosner is willing to give Jdynajia Club, of Han Francisco, broke the unother change to prove that his record and A. A. U. record for the mile swim out was no fluke. He wants the opportunity to do it at an early date. McGovern is booked for two bouts in ten days, and his handler. Kelly, plans to keep Terry working at least twice a month, so that the boxer will be well primed when the regular season rolls around. Monday night McGovern will box Young Joe Bor-rell at Broadway Club. Borrell is a rugged and good punching battler. South Phila-delphia fans are manifesting much inter-ent in the bout, and Promoter Muggsy Tay-lor has dusted off his S. R. O. sign, in case of emergency. Johnny Mealy will be McGovern's op-penent in the latter's other clinched con-iest. They will box the size bout to Bobby Gunnis's second show at Shibe Park. A Mealy-McGovern match has been hanging fire for several months, and it looks like the best lightweight fraces in this eity Both punch hard with their right hands.

We Offer No Novelties in the Franklin Runabout

T IS strictly a roomy twopassenger car-built with no misuse of the term "Runabout.

It is scientifically constructed to weigh but 2160 pounds-with thrifty upkeep, easy control and all-around road ability as a scientific result. A significant contrast to the average fine "Runabout" weighing 3500 pounds and over.

No-the Franklin owner need make no apologies for driving "too much car" or for extravagant upkeep. Yet he uses his car for work or for

pleasure just as much as ever, these days.

And speaking of upkeep-A Runabout that averages 20 miles to each gallon of gas and covers 10,000 miles and over to each set of tires is likely to be very conspicuous on the roads during these days of National Thrift.

To the experienced and discriminating motorist, we would be pleased to demonstrate the Franklin Runabout.

One is now on our floor-we will let it sell itself.
