PRISON SENTENCE GIVEN THREE IN KNITTEL CASE

Garrison, Herbert and Weinberg to Serve From One to Three Years for Conspiracy

HELD IN \$7500 BAIL

Defendants Take Writs of Error. Scored by Judge for Seriousness of Offense

MAYR LANDING, N. J., July 6.

Lawsy William I. Garrison, Detective George Herbert and Dr. Charles H. Weinberg, who were yesterday convicted of conspiracy growing out of the Knittel divorce proceedings, were arraigned before Judge William Martin of Newark, who presided at the trial, this morning...

The court does not intend to make any extended deliberation on this matter, which in itself is sufficiently painful. You stand convicted by the verdict of the jury of a conspiracy of an unlawful combination, or confederation, to prevent and obstruct the due administration of law and justice...

"This is a very serious offense. It strikes at the very foundation of justice and cannot be lightly dealt with. The public interest in a matter of this kind cannot be overestimated by a mere desire to deal with each individual separately and as a first offender. The prominence of the defendants, or some of them, cannot divert the natural course of justice. It is unfair to deal out one kind of justice to one class of defendants and not to others."

The court appreciates in its consideration what the sentence should be in this matter, the effects which necessarily accompany the sentence. In the case of Herbert, I assume he will lose his rights to hold a detective's license and his business will be gone. In the case of Dr. Weinberg, whether or not the law revokes his license, the verdict will deprive him of a means of livelihood in the practice of medicine and surgery. As to Garrison, the verdict and the sentence will deprive him of his position as an officer of the courts of New Jersey...

"But the breach of duty by each defendant has been serious. The breach of duty by Garrison, I think, is the most serious of the three. He was sworn to uphold the law. He was familiar with the thing that he was doing. Even though the punishment falls upon heavily upon him and not upon Dr. Weinberg, it is justly so."

SAVE HENS, URGES STATE; NEED EGGS FOR TROOPS

Agriculture Department Says Only Roosters and Old Fowl Should Be Eaten

HARRISBURG, July 6.—Warning that demands of military hospitals and convalescent camps for eggs will be so tremendous in the next year as to cause a shortage in the ordinary domestic supply given in the bulletin of the State Department of Agriculture...

It is urged that people should not kill off their hens. "On account of the wholesale killing of poultry throughout the State because of high grain prices and the sacrifice of perfectly good laying fowls, this department is making an effort to stop what is a waste," says the bulletin.

"Saving a good hen may help saving lives of soldiers. The department suggests the killing of stale, broken-down hens and useless roosters to save grain for others of value."

Pouring of Foul Liquids Into Streets Prohibited

Pouring into the streets any foul or noxious liquids from any establishment in the built-up portions of the city is prohibited. Policemen have explicit orders to record all violations in their notebooks and report them.

U-BOAT PERISCOPE SEEN NEAR HAMPTON ROADS

Daniels Orders Search on Report From Navy Vessel—May Be in Chesapeake Bay

WASHINGTON, July 6.

That an American navy vessel had sighted what was apparently the periscope of a submarine close to Hampton Roads was reported to the Navy Department today.

Other navy ships at once took up the search for the submarine and Secretary Daniels ordered that the most thorough investigation proceed.

If the object seen was a periscope it was not that of an American submarine, according to intimations at the department, though no statement was made as to whether our undersea boats were operating in that vicinity.

The official report followed press reports last night which said two incoming ships sighted a periscope five miles off Fortress Monroe in the bay.

Secretary Daniels did not make clear the exact location, and while he left the impression that it was "close to the Roads," it was believed the report said in fact the periscope was sighted within Chesapeake Bay.

The report had added significance from the fact that German U-boats are known to be operating farther from their home bases than previously, while unofficial reports indicate that Germany is turning out submarines of larger size and greater cruising radius than ever before.

CITY APPOINTMENTS TODAY

P. R. R. TRAIN HAS CLOSE ESCAPE IN WRECK PLOT

Ties Placed on Track of Pittsburgh and Washington Line—Slow Speed Saving Factor

WASHINGTON, July 6.—An attempt was made early today to wreck a passenger train on the Pittsburgh and Washington branch of the Pennsylvania Railroad. Ties had been placed on the tracks at one end of a high trestle near here.

The train was saved from destruction only because it carried a passenger for a flag station at the other end of the trestle, and was moving slowly when the engine hit the obstruction.

This Man's Liquor Comes High DOVER, Del., July 6.—In the Kent County Court of General Sessions, Fred Callahan, indicted for violating Delaware's anti-shiping law by having more than one quart of spirituous liquor in his possession, pleaded guilty to the indictment and was sentenced to serve six months in the Kent County jail and to pay a fine of \$50.

We can make your old pine floors look as good as new, and at moderate cost. We have the experience, the skilled workmen and the honest desire to give you entire satisfaction. Asking us for an estimate incurs no obligation.

The "Special Operator" and her duties

In every Bell Telephone central office there is an operator—often two or more—who is in charge of a special record on which is immediately posted every change of number and service discontinuance.

It is to this "Special Operator" that you are referred when the regular operators are unable to complete a connection with a number understood to be called for.

Naturally, at a time like this, when a great amount of readjusting is going on in the business world, telephone services are being so altered and amplified as to necessitate a corresponding amount of number changes. And when the assistance of the "Special Operator" is proffered, you are urged to repeat slowly the number called, with assurance that the quickest route to the desired connection is being followed.

The Bell Telephone Co. of Pennsylvania
