BELL, 3000 WALNUT KEYSTONE, MAIN 3000

Entered at the Philadelphia Postoffice as Second-Class Matter.

Philadelphia, Wednesday, July 25, 1917

THE NEW PHILADELPHIA

IT IS the privilege of successful banking institutions, as it is of successful men, to tie together the loose ends of progress and read therefrom the future.

"Philadelphia is fortunate," shouts a great local bank, "in having a development in its industrial district unequalled by any other section."

There are citizens living in the very center of the most amazing industrial progress this territory has ever known who are utterly blind to it.

Every dependent industry has felt the good: There is being added to our manufacturing capacity literally millions and millions of value annually.

Straws show which way the wind blows. Little things determine industrial dynasties. The shifts of trade are many and their speed great.

Philadelphia police catching vice is something like fishing for trout in a bathtub.

When Austrians can drive Russians in headlong flight it is dollars and doughnuts that there's anarchy somewhere.

THE TOLSTOY PREDICTION
TOLSTOY predicted that out of the North would come the great hero of the next war.

make it. His personality is the vital factor, for on it he must finally rely. He faces a task that is literally superhuman.

TRIUMPHANT PROGRESS

FORGETTING past exasperation with the Public Service Commission for its delay in granting certificates of public convenience, for essential parts of the Taylor comprehensive transit plans, the people can afford to applaud its final decision to approve the entire program as a whole.

It marks the beginning of a new era, an era of unprecedented development. The last barrier has been passed, so far as a construction is concerned.

There are men who dislike Theodore Roosevelt and many more who fear him, but there is none, we believe, who questions the quality of his Americanism or the iron in his blood.

WE HAD hoped that the President would stand firmly behind General Goethals and enable him to put through at once his comprehensive building program.

Speed 'em up! We know where we are going, and we are on our way.

STOPPING TRADE WITH GERMANY

Government Plan to Forbid Commerce With the Enemy Will Affect Philadelphians

WASHINGTON, July 25. CERTAIN Pennsylvania families may be hit by the trading-with-the-enemy act if it becomes a law as it passed the House.

The Administration wanted this act to prevent any intercourse with Germany or with the allies of that country. The Secretary of State and the Secretary of Commerce, who is to administer the law, urged the passage of this measure and were supported by the Attorney General.

It was said the bill was an "American bill," although it closely followed the English trading-with-the-enemy act. As it passed the House the bill sets up an extensive bureau in the Department of Commerce under the direction of an alien property custodian.

And all year long upon the stage I dance and tumble and do rage and do rage and do rage.

Plain Language From Truthful Anton
In my opinion, the theatre hasn't improved in the last thirty or forty years.

WHY PRESIDENT WILSON OPPOSES "COMMITTEE ON THE CONDUCT OF WAR"

Interference of Congressmen With Lincoln's Administration Resulted in Little Useful Service and Much Bewildering Criticism and Recrimination

IT WAS to be expected that Mr. Wilson would refer the question of congressional supervision of executive conduct of the war to the touchstone of history.

The constant supervision of executive action which it contemplates would amount to nothing less than an assumption on the part of the legislative body of the executive work of the Administration.

The principle at stake is fundamentally the same in 1917 that it was in 1861. Now as then stand always the conduct of a war must be undertaken by executive and not by legislative authority.

There was perhaps more excuse for congressional interference in 1861, because when Congress met on December 2, the North was in something of a panic over Federal reverses.

On the morning of the 30th the mine was exploded. A great crater 200 feet long appeared; the Confederates were stunned and began to retreat.

AMERICA TEACHES RUSSIA

Our Help Will Be as Important as Peace in a War

BOTH Russia and America will have the intimate relations into which we have been thrown by the war can only when peace is made and American pride and skill can be used for the benefit of the Russian people.

American enterprise and courage are needed to bring to the surface the great untapped riches of the country.

English literary critics ever have cause for comment on American slang. It is written by American authors. They are not only a part of the English language, but they are a part of the American life.

What Do You Know?
