ereal Yields Safe Now, of People Have Not Been Con-Good Quality and Giant Size, Expert Says

CHICAGO, Aug. 7 .- Thee rops of the atry are safe. Nothing can now interwith one of the largest grain yields in serican history excepting possibly an sarly frost, which may damage corn

These were the statements today by B. W. snow, leading crop authority associated with Bartlett, Frazier & Co., of Chicago, Oats will lead, with a yield of 1,500,000. e00 bushels, a world's record, Snow stated. Harvesting and threshing now in progress indicaste also the crop is of exceptional

Corn has been sent past one danger point by the rains of the last three days. The crop will be late, but it is making up for this in more than a favorable yield and in excellent quality.

The winter wheat yield, Snow maid, is better than expected, but short because of damage suffered during the winter. The grade is much better than normal.

Spring wheat has been very unsatisfac-tory, Snow said. The yield will be 10,000,-000 short. This will be offset, however, by the increasing winter wheat yield. The wheat crop will be from 5,000,000 to 40,000,-000 bushels larger than last year, which was comparatively small. emparatively small.

id crops have been doing better in the last three weeks than at any other time this season. Conditions have been ideal and all crops will be above normal.

MELD CROPS BETTER REICHSTAG IGNORED

BERLIN, Aug. 7. Open dissatisfaction with the new Cabinet was expressed by the Liberal press today. The Tageblatt was bitter in its statements that the people had been given no choice in the new Government, and declared that

the choice confronting Chancellor Michaelia "The representatives of the people had o influence in the Cabinet appointments, the Tageblatt declared. "Gormany received the new Government as a gift from above There is no possibility of acknowledging or

refusing it. "Parliament has no more rights than other Farliaments. The great German peo-ple have neither direct nor indirect influence in the selection of their managers. They

have no power and no responsibility. They are exposed to the strokes of fate." Despite the dispatisfaction with the new Cabinet and the more pronounced upheaval just past, it is apparent that moderniza-tion of Germany will occur through evolu-

tion, not by "direct action." A visitor from abroad would at once be struck by the absence of all outward man-ifestations that usually accompany such hanges as are now going on in Germany. There has not been the slightest sign of a revolutionary spirit during the period that had its beginning in the movement that overthrew Bethmann-Hollweg.

The new Ministers have been recruited largely from the Conservative ranks, the Prussian under-secretaries and heads of the provincial bureaucracy being traditionally of that political persuasion.

Exceptions are the parliamentarians Von Krause, Nationalist vice president of the Prussian Diet, and Dr. Peter Spahn, the aged Catholic Reichstag lender. He is not in health and it is doubtful whether he will be able to stand the strain of ministerial labors. He collapsed and fainted at a Reichstag committee meeting recently. He has not yet fully recovered.

PETROGRAD, Aug. 7 The policies of the new Russian cabinet, headed by A. F. Kerensky, will trend away from radicalism and toward conservatism. In the Ministry, Kerensky holds the posts of Premier, Minister of War and Minister of Marine. He is the soul of the new Government.

The Kerensky Cabinet today was termed 'Russia's Government of Salvation," and it losing no time in getting down to work Sterner discipline for the army and the stamping out of anarchy are receiving the most attention right now. Every move that has been made so far by the new minister indicates Russia's determination to continu in the war. MISS RANKIN BLAMES RYAN FOR MINE TIE-UP

Congresswoman Charges Conspiracy by Copper Magnates. Urges Federal Control

WASHINGTON, Aug. 7. An attack on John D. Ryan, of New York, president of the Anaconda Copper Company, of New York, was made in the House today by Representative Jeannette Rankin, of Montana, who blamed Mr. Ryan for labor troubles which have tied up the entire copper industry of Montana.

Miss Rankin also declared the copper

oducers have combined to refuse the pric of 16.67 cents a pound, as arranged for by the Council of National Defense, and were "real democratization or parliamentarizawaiting to see what price the new war industries board would offer. The Montana Congresswoman advocated the Government operation of all metalliferous mines and tion resembling an exotic sea monster" to reduced a resolution to empower President immediately to take over and

President immediately to take over and operate all such mines.

President Ryan, of the Amalgamated Copper Company, said Miss Rankin, is responsible for what is known in Montana and the copper-mining regions of the far Northwest as the "rustling card" system As explained by Miss Rankin no miner can get a job unless he carries a "rustling card," which allows him to "rustle" for a job. In other words, the card is the Amal gamated Company's "O. K." to the effect that the miner is a peaceful citizen who never complains of labor conditions and is

not an agitator. Rankin said she had endeavored to ee Mr. Ryan, who is at present connected with the Red Cross in this city, but that he had refused to see her. She also said she had endeavored to see President Wil-son, Attorney General Gregory and others in relation to the labor troubles in Montana

and had falled. and had failed.

At the conclusion of her remarks, Representative Rankin was asked by several
members whether the I. W. W. figured in
the strikes and riots in Montana to any
great extent. She replied that the I. W. W. are greatly in the minority. Representative Johnson, of Washington,

nterrupted her to say: "The I. W. W. organization is responsible for the nurder of the Governor of Idaho, it threatened the Governor of I'tah and has threatened others. They say they owe no allegiance to the United States. Why should they squeal when one of their number is hanged by decent citizens?"

The initial class of officers and noncommissioned officers has left camp for an artillery school to study the handling of trench mortars. This indicates that the American troops will use them as the French armies have been doing for realsting and silencing hostile machine-gun fire.

American officers praise the weapon very highly and believe it will be very effective in the hands of the Vankee soldiers.

MRS. DE SAULLES PUT IN COMFORTABLE ROOM

Will Remain in Quarters Adjoin ing Sheriff Unless Sent to Hospital

MINEOLA, L. I., Aug. 7.

Mrs. Blanca De Saulles, barely a shadow
of her former seif, was today removed from
a cell in the Nassau County jail to a comfortable bedroom adjoining the Sheriff's quarters. She will remain there until she goes on trial in October for the murder of Jack de Saulles, former football star, unless the court grants the petition of her lawyers that she be removed to a hospital for treat-

Worry over the disappearance of her four-year-old son, Jack, Jr., has prought the twenty-three-year-old Chilian heiress to the verge of a complete collapse, her attorneys said today. She fears that the boy has been spirited away by wealthy relatives of her former husband, and that she may never see him again, even if she is set free

"We made a preliminary physical examination of Mrs de Saulles last night," said Dr. Guy Cleghorne, the jail physician, today. "Her physical condition is very poor. She is anemic and undernourished and weighs less than 100 pounds. She is mentally apathetic and listless. She submitted to the examination like a child. submitted to the examination like a child. and did not see mto realize or to be in-terested in what was going on."

The War Office this afternoon reported heavy German losses in the attack. The assault was launched early this morning between Avocourt Wood and Hill 304. French guns poured a heavy fire upon the attacking forces, and they were driven back to their trenches.

Renewed activity was also reported among the French forces in Belgium. Violent artillery engagements were in progress there, the War Office stated, especially about Bixschoote and Hurtebise.

In the region of Craonne there were no infantry actions. In Champagne the French infantry actions. In Champagne the French made successful raids, bringing back many prisoners.

LONDON, Aug. 7.

Comparative calm has settled down over the British section of the western front, according to the War Office statement today, which said that nothing of importance had taken place during the night.

Unofficial advices, however, told of activity in the district of Lens, where the British are working forward slowly, but methodically, toward this important German position.

REBLIN (via London), Aug. 7 Raiding operations were reported on the western front in today's official statement. North of the Laon-Soissons road, near Berry-an-Bac, storming troops made thrusts, which resulted in the capture of prisoners and booty, it was announced.
