

Safety Devices Can't Protect The Careless Workman

For Your Own Sake and the Sake of Your Wife and Children
Co-operate With Your Employer to Prevent Accidents in Your Shop

Employers have spent vast sums of money for the protection of their workmen. They have installed costly safety devices and in some cases have even remodeled their factories to improve the working conditions. This expenditure adds nothing to their profits. You are the one who benefits. But you must do your part.

Unless You Co-operate With Your Employer Accidents Will Continue to Take Their Frightful Toll of Life and Limb in Spite of All the Safety Devices Ever Made

Safety first rules are worse than useless unless they are obeyed by every workman in the entire establishment. A chain is no stronger than its weakest link, and one reckless employe can cause a catastrophe that will snuff out dozens of lives.

The Careless Workman is a Menace to Your Safety

The man who takes unnecessary chances is chiefly responsible for the industrial accidents that claim hundreds of thousands of victims every year. But the reckless workman is not the only one to suffer. His carelessness often causes the death or serious injury of his fellow employes—you are in constant danger as a result of his failure to obey the rules of—Be Careful.

For Your Own Protection Make Him Be More Careful

Set him the safety first example, and when you see him taking unnecessary chances, "call him down" hard. He may resent your attitude at first, but you cannot afford to run the risk of being killed or injured as a result of his thoughtlessness.

It Only Takes One Accident to Make You a Cripple for Life. The Time to Be Careful Is Now Before That Accident Happens
