By ROBERT W. MAXWELL PHILLIES BALL PARK, Aug. 30.

Chief Bender collected another scaip for his belt in the opener this afternoon and added \$50 to his growing bank roll when he massacred the Braves from Boston, in a moist and dripping battle. The official count was 4 to 3. This was the Chief's fifth straight victory.

Two home runs which bounced off the bats of Bender and Cravath helped considerably, and when Gawge Whitted came home on the other end of a double steal, the verdict was unanimous.

NO FAVOR TO STRIKERS

Take Your "Comfy" Shoes to Camp, Baker Advises

SECRETARY OF WAR BAKER doesn't want the drafted men from Pennsylvania to go to the cantonment at Annapolis Junction barefooted. This official order was sent by Brigadier General E. P. Crowder, provost marshal general of the army, to Governor Martin G. Brumbaugh today: "The Secretary of War directs that men reporting to mobilization camps be advised to take with them a pair of comfortable shoes, so as to afford them a change from their new regulation marching

Threats of labor leaders to call strikes at the Midvale Steel plants and other plants doing war work were answered by James C. McDonald, labor member of District Appeal Board No. 2, today with a warning that army eligibles involved in strikes will receive little consideration from the board. While the strike possibility was being con-While the strike possibility was being con sidered news came from Harrisburg that the first 5 per cent of Philadelphia's quota of drafted men would be sent to Camp Meade September 8 and 9. No others in the State will go so soon. Men from twentyseven districts will go September 8; men from the others the following day. The labor leaders expressed the belief that officials of big industria! plants would use the exemptions which are to be granted to many of their workers as a club to keep

to many of their workers as a club to keep them at work under conditions that in normal times would not be tolerated.

"I want it understood," said McDonaid, "that the only club held at the present time is held by this board. This board will not permit any plant to coerce its workers, but all exempted men who engage in strikes will have to appear before this board, if they come under our jurisdiction, and show reasonable cause for striking. If they don't, the exemptions that are granted them for the exemptions that are granted them for industrial reasons will become void and

such men will become members of the After explaining how the board would and coercion on the part of their employers McDonald impressed upon the union leaders the necessity of keeping up the chain of supplies to the army by saying: "Our boys are in France. We must work here."

This plan was announced by Adjutant General Stewart and Colonel Sweeney, at Harrisburg, today following arrangements with the railroads for the transportation of the men of the first 5 per cent quota in units composing all the men from any one district. In this way each local draft board will send its entire quota away on one day, instead of sending 1 per cent of the quota on each of five days. This permits the men to travel together in the company of friends and neighbors, and cuts down the work of the local boards. At the same time the

# TRANSIT BIDS **DECISION SET** FOR TUESDAY

Contractors to Accept or Reject Propositions at Original Rates

CONFER WITH THE MAYOR

McNichol Warns That Readvertising Will Cost City Additional Millions

Announcement was made today of a mass-meeting on Monday, September 10. called by the Nonpartisan League of Philadelphia, to discuss the proposed transit lease. "All citizens interested in the Mayor's plan to divide control, 'fifty-fifty,' with the transit company, are invited to meet at the Parkway Building, Broad and Cherry streets," the league's invitation reads. There will be two sessions; the first at 10:30 a. m. and the second at 3 o'clock in the afternoon.

Independent candidates for Councils from various wards will be invited to state their views, and addresses are also scheduled from S. Davis Page, the veteran leader of reforms in Councils; Chairman Gaffney, A. Merritt Taylor and Select Councilman Ira D. Garman. Representatives of Business Men's Associations are also asked to state their views. At the afternoon session resolutions will be adopted.

After an hour and a half of conference today with Mayor Smith, Transit Director Twining and Chief Engineer Quimby, of the transit department, representatives of the three contracting firms which hold awards for \$15,000,000 worth of work on the Broad street subway and subway delivery loop, deferred action until next Tuesday, when they will notify the Mayor definitely as to whether they will accept or

reject the contracts. The consensus of opinion at the conclusion of the conference, however, was that the greater part, and possibly all of the contracts, will be accepted at the prices upon which the bids were submitted seven months ago. In return, the Mayor assured the contractors that she city would deal fairly and generously with them in the interpretation of the various provisions of the

contracts. WARNS AS TO READVERTISING Each of the firms had previously submitted requests for concessions from the ity, in view of the increased cost of labor and materials since bids for the work were submitted. The Mayor, at the advice of City Solicitor Connelly, informed the bidders that the city could not regally grant the concessions, although he said that personally he felt the concessions asifed were just

and fair. Senator McNichol, head of the Keystone State Construction Company, which was awarded four of the six contracts, warned the Mayor that if an agreement was not reached and it should be necessary to readvertise for the work the cost to the city would be between \$5,000,000 and \$8,000,000 higher than the figures of the present con-

higher than the figures of the present contracts.

Mayor Smith, at the opening of the conference, dispelled a rumor to the effect that he would take legal action to compel the contractors to proceed with the work if an agreement should fail. The Mayor made his announcement after F. J. MacIsaacs, of the firm of Smith, Hauser & MacIsaacs, of New York, which was awarded one of the six contracts, said that his firm was the six contracts, said that his firm was ready to reject the contract. Later, Mr. MacIsaacs recalled his decision.

Macisance recalled his decision.

The Mayor said:

If you do not take the contract I shall make no effort to force it upon you. I don't believe there is a court in the land which would force you to do the work, and I don't intend to the up the transit situation with further litigation. Progress is

CONCESSIONS ASKED Although the requests for concessions made by each of the contracts were different in some respects, in general they followed two lines. These are:

First, that the city assume all over-head charges for the up-keep of the plants in case the work, after it has been begun, should be delayed through the fault of neither the contractor nor the

Second, that the city permit the con-tractors to follow a different method of prosecuting the work so long as the completed contracts should be the same as provided in the original specifications. In the first case the Mayor said the City Solicitor had ruled that such payments would be illegal. The Mayor after the conference, however, said that Councils could, after the contracts had been signed, pass an ordinance to permit the Transit Director to reimburse the contractors should such a contingency arise.

So far as the second concession was concerned it was indicated that its application would depend largely upon the interpretation placed upon the powers of the Transit Director. The Keystone State Construction Company has asked that it be permitted to prosecute part of the work under the
