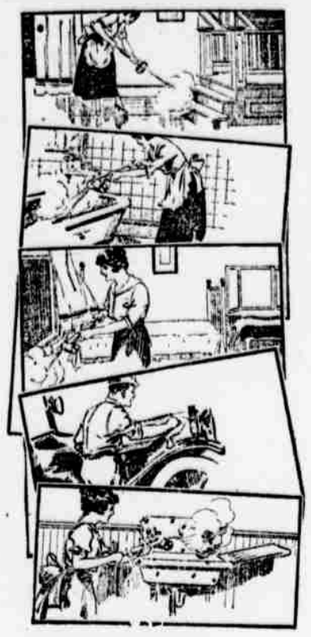
RADIUM CLEANSER CAPTURES CITY!



From various sources we learned that Philadelphia was an *extremely difficult* city wherein to market any product. Philadelphians, we were told, were *very cautious, prudent* folk. They demanded that the *dependability* and *superior quality* of an article be *thoroughly demonstrated* to their *complete satisfaction* before it would be admitted into the households of the "City of Homes."

But, because of the *unusual merit* of Radium Cleanser, we were told that we could win Philadelphia in about *six months* (and that was considered unusual)!

Nothing daunted, we opened our local office about one month ago. In our first newspaper advertisement we told the public about the wonders of Radium Cleanser. We told them that Radium Cleanser was a liquid *cleanser and polisher*. That it was a disinfectant, a deodorizer and a *sure death* to flies, mosquitoes, roaches, bedbugs and all other vermin. We said that Radium Cleanser will *clean* and *polish* furniture, automobiles, marble, tile, brass, carpet, rugs, etc.

In plain English we told the public that there was *no other product* we knew of that would serve *so many purposes*, and serve them all so well, as Radium Cleanser. We stated our case and asked that our product be given a *fair trial*.

And the results have absolutely astounded us!

Orders began to come in by mail, telephone and wire. Merchants and storekeepers asked *how soon* we could deliver them their supply. Housewife told housewife, and our factory force was doubled, then tripled to meet the *growing demand for* Radium Cleanser. But—*results* speak louder than words. It is sufficient to say that in *four weeks* we secured distribution in over *two thousand* local stores.

The success of our campaign, considered by many to be one of the most *colossal* and *staggering* achievements in modern merchandising, was due *solely* to the *unusual merit* of Radium Cleanser.

Enormous success in England, France, Belgium, Germany, Italy, Russia, Australia, India and all foreign countries. Now introduced into the United States for the first time east of the Rocky Mountains. Testimonials from every type of user, large and small. Recommended by medical authorities. *Adopted in 1915 and now being used in France by the British Red Cross Society, the Indian Army Hospital, the Canadian Red Cross Society, the American Ambulances, the French Red Cross Society, the Allied Hospitals.*

A few of the 2,000 Stores secured in FOUR WEEKS
