

55,000,000 MORE FOR WAR

Huge Urgent Deficiency Bill Reported to the House \$1,145,000 TO FRANKFORD

WASHINGTON, Sept. 6. Another staggering money bill was presented to the House today. The urgent deficiency bill, totaling \$4,810,975,370.29, was reported from the Appropriations Committee with a report from Chairman Fitzgerald recommending its passage.

Direct appropriations of \$3,775,979,870.29 are provided in the bill, and the ordinance department of the army is authorized to let contracts and incur obligations amounting to \$1,035,000,000. The appropriations, the report points out, are \$1,829,475,966 less than estimates submitted, and the whole amount provided in the bill is \$804,475,966 less than the estimates called for.

Of this huge total all but \$7,206,474.29 is to be devoted strictly to war purposes. \$4,000,000 is for the Alaska Railroad and the balance of the above figures is divided among deficiencies of the various executive departments of the Government, the District of Columbia, courts and the like.

For defense of the Panama canal alone \$1,366,825 is provided—\$902,825 to be used in constructing a submarine base. For the military establishment the total of \$1,981,602,735 would be appropriated. The single item of machine guns calls for \$126,277,000 and authorization to spend \$50,000,000 more is provided in the bill; \$70,000,000 is asked for ordnance stores.

For mountain, field and siege cannon, ammunition for the guns, mobile artillery and submarine mines and nets, a total of \$1,985,513,000 is asked in addition to authorization to spend \$975,000,000 more for the same purpose.

\$262,264,480 FOR NAVY EMERGENCY. For the naval establishment \$262,264,480 is provided in the bill. This figure includes a hundred million dollar naval emergency fund; \$38,000,000 additional for aviation, \$25,000,000 for ammunition for vessels, \$30,000,000 for reserve ordnance stores, and \$10,000,000 for engineering expenses.

The contracts into which the Government may enter, in addition to the appropriation asked, include \$3,000,000 for terminal facilities for the ordnance department of the army; \$50,000,000 for machine guns, \$30,000,000 for armored motorcars, \$225,000,000 for motor cars, \$145,000,000 for motor trucks, \$700,000,000 for ammunition for the guns and \$50,000,000 for mobile artillery.

Under Treasury Department deficiency appropriations \$22,000 is provided for the Reedy Island quarantine station, \$25,828 for the Cape Charles station, \$98,844 for the station at Savannah and \$137,000 for the Boston quarantine station, and \$630 is provided for the New Orleans mint.

\$1,145,000 FOR FRANKFORD ARSENAL. Under War Department deficiencies the following appropriations are made for arsenals: Benet, Cal., \$82,500; Frankford Arsenal, Philadelphia, \$1,145,000; Picatinny Arsenal, Dover, N. J., \$40,000; Rock Island, Ill., \$1,420,500; San Antonio, Tex., \$30,000; Springfield, Mass., \$145,000; Watervliet Arsenal, N.Y., \$592,000, and Watervliet Arsenal, West Troy, N. Y., \$789,500.
