**Etiquette Questions** 

To the Editor of Woman's Page: Dear Madam—Will you kindly advise us these points through the column:

(1) The numeral 2 is used instead of junior when the descent is not direct. For instance, when a man is named for his uncle 2 is added to his name, or if his

uncle 2 is added to his name, or if his uncle is a junior or a 2, 3 is added to the name. Some persons name a boy after his grandfather, and as this is a direct descent, junior is frequently added instead of 2, although not always. The usual way is the straight name for the father, junior for the son and 3 for the grandson. (f) I would not present the card imme-diately on being introduced, but before leav-ing it would be well to say you'd be glad to have him call and then give him your card. Of course, if he should ask for it before that time, give it to him. It is correct for a man to offer his card to another as they are parting after having been introduced. This should not be done, however, unleas the man to whom you have been introduced expresses to whom you have been introduced expresse a desire to see you again.

(3) Your questions regarding patronizing and compromising remarks will be answered during the week in one of the leading ar-ticles of this column. We cannot give the space to the matter here.

(4) Business paper may be used. Either double or single sheets are correct. Either write the name and address at the top and then say "Dear Madam," or if you know the woman, and it is only a semibusiness letter write "My Dear Miss or Mrs. \_\_\_\_\_" (whatever her name is).

(6) Write to the secretary of the Phila-delphia Assembly, Mr. S. Pomberton Hutch-inson, 1523 Pine street, and ask for the con-ditions of admission to the Assembly. Mr. Parker Norris, 2122 Pine street, will give you information regarding invitations to the Bal Masque.

#### Gift for Baby

To the Editor of Woman's Page: Dear Madam-A very good friend of mine has just riven birth to a daughter and I feel that I should give the baby a present. What would you suggest, please?

If you want to give baby jewelry, which is of course, a more lasting gift than any-thing else, you might give a pair of baby pins or a sliver bib fastener. Lots of pins or a sliver bib fastener. Lots of pins or a silver bio fastener. Lots or mothers, however, prefer to receive odd pieces of dainty clothing for their little ones. There is greater choice in this field. There are little knitted shoes, bonnets and dresses from which to select. A carriage robe would be very acceptable at this time of the year. Or if something simpler is desired, the shops are full of celluloid articles for the baby.
