

KAISERISM'S DOOM DEMANDED BY KAHN

Banker Declares Outlaw Creed Must Be Discredited by German People

NO PEACE WITH EVIL

Warns Foreign Born to Show Allegiance to Nation Fighting in Nobler of Causes

HARRISBURG, Sept. 26.—"There can be no peace answering to the true meaning of the word, no peace permitting the nations of the earth, great and small, to walk unarmed and unafraid, until the teaching and the leadership of the apostles of an outlaw creed shall have become discredited and hateful in the sight of the German people," Otto H. Kahn, banker, of New York, told the members of the Harrisburg Chamber of Commerce before whom he spoke at noon today preliminary to the opening of the second Liberty Loan bond campaign in this city.

Mr. Kahn came here upon the invitation of the Chamber of Commerce, which is back of the second Liberty Loan campaign that is to be staged in a few weeks. Last spring Harrisburg's allotment of Liberty Bonds was \$2,000,000, but following an address by Frank A. Vanderlip, New York, and as the result of an organized campaign, nearly \$4,000,000 was subscribed.

PRUSSIAN CUNNING

Mr. Kahn made a vigorous address, saying in part: "I speak as one who has seen the spirit of the Prussian governing class at work from close by, having at its disposal and using to the advantage of its agency for moulding the public mind. I have watched it proceed with relentless persistence and profound cunning to instill into the nation the domination of a power worship and world dominion, to modify and pervert the mentality, indeed the very fiber and moral substance, of the German people.

"I have hated and loathed that spirit ever since it came within my ken many years ago, hated it all the more as I saw it ruthlessly pulling down a thing which was dear to me, the old Germany, for which I was linked by ties of blood, by fond memories and cherished sentiments.

"The world fervently longs for peace. But there can be no peace answering to the true meaning of the word, no peace permitting the nations of the earth, great and small, to walk unarmed and unafraid, until the teaching and the leadership of the apostles of an outlaw creed shall have become discredited and hateful in the sight of the German people, until that people shall have awakened to a consciousness of the unfathomable guilt of those whom they have followed into calamity and shame, until a mood of penitence and of a decent respect for the opinions of mankind shall have supplanted the sway of what President Wilson has so trenchantly termed treachery and treason.

"God grant that the German people may before long work out their own salvation and find the only road which will give to the world an early peace and lead Germany back into the family of nations from which it is now an outcast.

DUTY OF CITIZENSHIP

"Whatever one's views and feelings, whatever country of one's birth or kin, only one course was left for all those claiming the privilege of American citizenship when by action of the President and Congress the cause and fight of the Allies was formally made our cause and our fight. The duty of loyal allegiance and faithful service to his country, even unto death, rests, of course, upon every American.

"But it is possible to speak of a comparative degree concerning what is highest as it is, the most elementary attribute of citizenship, that duty may almost be said to rest with an even more solemn and compelling obligation upon Americans of foreign origin than upon native Americans. For we Americans of foreign antecedents are here not by the accidental right of birth, but by our own free choice for better or worse.

"We to the foreign-born American who betrays the splendid trust which you have reposed in him!

"We to him who considers his American citizenship merely as a convenient garment to be worn in fair weather, but to be exchanged for another one in time of storm and stress!

"We to the German-American, so-called, who, in this sacred war for a cause as high as any for which ever people took up arms, does not show an eager determination to be in the very forefront of the struggle and to outdo his native-born fellow-citizen in devotion and in willing sacrifice for the country of his choice and adoption!

"To defend the very foundations of liberty and humanity, the very groundwork of fair dealing between nations, the very basis of peaceable living together among the peoples of the earth against the fierce and brutal onslaught of ruthless, lawless, faithless might; to spend the lives and the fortunes of this generation so that our descendants may be freed from the dreadful calamity of war and the fear of war—that is the highest cause for which any people ever unheated his sword.

"He who shrinks the full measure of his duty and allegiance in that noblest of causes, be he German-American, Irish-American, or any other hyphenated American, be he I. W. W. or Socialist, whatever the appellation, does not deserve to stand amongst Americans or indeed amongst free men anywhere. He who, secretly or overtly, attempts to thwart the declared will and aim of the nation in this holy war, is a traitor, and a traitor's fate should be his."

Lad Who Broke Out of Jail and Reformatory Captured After Chase

U. S. TAKES MEASURES TO STOP GOLD EXPORT

Financial Experts Declare Yellow Metal Will Not Leave Country in Large Amounts

NEW YORK, Sept. 26.

In the opinion of some financial experts, gold exports from the United States for some time to come will not reach any appreciable amount to any country. At intervals in the last two years there have been discussions of the legitimate character of the exports of gold to various countries, particularly Spain and South America. The peculiarity about the exports to Spain was that they were progressing on a large scale, although the United States had a material credit balance against Spain. It is now the general impression that the greater part of the gold withdrawn from this country was shipped indirectly to Berlin interests.

Attention was called some time ago to the difficulties experienced by individuals and firms who desired to remit in payment for burials, bagging and other commodities purchased from India. The Indian Government had debarred silver imports, and this necessitated the shipment of gold from this country. The Government of India has been accepting the gold on the basis of 7.53344 grains of pure gold per rupee. It is understood that this price will be maintained on gold received up to today. Hereafter a reduced price will be paid.

RIGID SUGAR ECONOMY NEEDED; SUPPLY SMALL

Crop Bought Up by Allies Causes Shortage in Supply for United States, Is Charge

Rigid economy in the use of sugar during the next two months will be necessary, or the product available for consumption will be exhausted. Scarcity of sugar is giving dealers much concern. The Arbuckle Company's plant in New York was obliged to close down recently on account of shortage of material, and it was feared that Philadelphia refineries would be obliged to take the same course. Labor troubles in some places have also complicated the situation.

Representatives of several Philadelphia establishments said today, however, that they would be able to remain in operation, provided that the people practiced rigid economy.

A representative of the W. J. McCahan Company said the shortage was due to the fact that representatives of the Allies bought up the entire crop in Cuba. The ready market, also, caused a spirit of independence among the Cuban planters, who increased the price until it became exorbitant. Food Administrator Hoover soon learned of the action of the Cubans and cautioned the American buyers against paying such unreasonable prices for the product.

A new crop of sugar is due in December, and arrangements are now being made between representatives of the Allies and the United States by which it is hoped that the crop will be apportioned.

As the coffin, wrapped in an American flag, was placed in the grave, an American bugler blew "Taps."

DISTRICT ROOKIES SHOUT, 'WE'RE BERLIN BOUND'

Start on Track 13, Which They Say Is Bad Luck for Kaiser and President's Lucky Number

WASHINGTON, Sept. 26.—Shouting "We're Berlin-bound," the national capital's first contribution to the National Army entertained today for Camp Meade. The squad consisted of seventy-seven young men, some dressed in khaki, some in overalls, while others had on their best clothes. There were more than eight nationalities represented in the first contingent of District "rookies."

There was a shout when they marched through the trenches to find their train was on track "No. 13."

"Bad luck to the Kaiser," a rookie shouted. "It's the President's lucky number and good enough for us," another shouted. The movement of the District men will continue until the first 45 per cent of the District's quota is filled.

ALABAMA UNDER FIRE

Norton Admits His Purpose to Force Expulsion of Accuser if Charges Are Disproved

By a Staff Correspondent

WASHINGTON, Sept. 26.

Resentment among members of the House over the delay in starting an investigation of the Hefflin charges in connection with the Bernstorff disclosure in finding expression today in bitter criticism of the Rules Committee, to which the Norton and Fordney resolutions, calling for an investigation, were referred.

There was strong talk heard in the corridors and cloakrooms before the House convened today, and threats were freely made that the matter would be forced to the floor of the House regardless of the committee. The impression continues strong that the Administration is not favorable to an investigation.

Representative Norton, of North Dakota, who was the first to bring the Hefflin accusations officially to the attention of the House, does not hesitate to say that the purpose in insisting upon an inquiry is to bring about the expulsion of Hefflin from Congress.

Mr. Norton frankly states his entire disbelief in the utterances of the Alabama Congressman regarding the disloyalty of individual members, and the rumored existence of a gambling house in Washington.
