TO LICENSE ALL DEALERS

Some Middlemen Will Be Eliminated in Plan to Keep Supplies in "Direct Line"

WASHINGTON, Oct. 10. Government food control will be also lute after November 1. Herbert Hoover oday is putting the finishing touches on a proclamation shortly to be issued by President Wilson, licensing dealers in about twenty prime necessities of life.

The "stackers to business" will be counded up by the coming executive order. seconding to Hoover. Regulations will be soned, checking speculation in foodstuffs and preventing boarding, waste and reriction of output. "Unfair and unreason-ble" profits will be eliminated. Among the commodities to be placed

under control are flour, bread, tocats, po-tatoes, sugar, milk, butter and dairy products, rice, canned foods and maple egetables Although regulation of retailers is lin-

ited by law to those doing a business of \$190,000 or more annually. Hoover expect to exercise indirect control over the small est corner grocery through his hold on mea-packers, cold storage houses, millers, can ners, elevators, grain dealers and whole-

After November 1 no unlicensed dealer can handle the commodities to be named by Hoover. Regular reports from licensed firms will enable the food administration to keep a strong hold on them. A legal de-partmen' has been created to punish violations and interpret the law. Word was received today from Paris that Raymond Hummel, a graduate of the Uni-versity of Ferms icania, who was prepar-ing to enter the American actation corps, was drowned while boating on October to Hummel's parents, Mr. and Mrs. Alphonse

The ficensing plan resulted from over 200 conferences held with leaders in all lines of trade, and has their approval. "No business factor performing a useful function" will be interfered with according to Hoover. Elimination of some unnecessary middlemen may result from Hoover's determination to keep foodstuffs flowing from producer to consumer. "In direct lines have examined a programmer as receible."
