The weather was clear but very cool An October sun shown down on the playing field, but it brought no warmth with it. The Giants were forced to step around lively to keep warm in the preliminary workout. Heine Zimmerman got quite warm under the collar when the crowd started in to reast him in its own inimit-able way. He was the object of the bleach-ers' attack and was in for a decidedly uners attack and was in to a school of the pleasant afternoon. When the White Sox trotted out on the field for practice there was little cheering. The crowd evidently was awaiting for their favorites to show something before they grew enthushastic. What a Lot

Your "tire trouble" is mainly inner tube trouble. The ordinary inner is a mere thin capsule for air, not built to fit the cavity of the outer casing, but a misfit that means "pinching", leaks and early blowouts.

The RHINOS INNER TUBE is built to fit the tire, built to support the tire, built to increase the mileage of any casing. The RHINOS is hand-made of highgrade rubber, reinforced by layer of heavy Egyptian fabric. It will not pinchresists early blowouts-resists puncture not only by its thickness and toughness, but because of the RHINOS LIQUID PUNCTURE SELF-SEALER which each tube contains-automatically and instantly sealing any ordinary nail-hole, without serious loss of air.

Don't wait for trouble on the road with ordinary inner tubes, but put in RHINOS today, drive without dread, and give tire troubles the glad go-by.
