"MILADY'S TOILETTE" SUBJECT TO WAR TAX

Beautifiers Will Sustain Levy of 2 Per Cent of Sale Price-Medicines Also Affected

It is going to cost more to keep cleat this year than formerly, hecause the new war tax stipulates that the manufacturers. uporters or producers of all soaps and powders must pay an assessment to the Government of 2 per cent of the price for which these articles are sold.

Milady's tollet will be particularly affected, inasmuch as all perfumes, essences. commetics, petroleum jailies, hair oils, pomades, dentifrices and tooth pastes are subject to a similar tax. Regarding perfumes, there is a tax equivalent to \$1.10 per wine gallon on all those that contain distilled spirits. Owing to this tax, which has been put on the wholesaler, the pur-chasing price of this article has jumped 25 per cent, according to local druggists.

In fact, the entire drug husiness has more or less of a tax imposed upon it, as all pills, powders, tonics, plasters, iiniments and salves also have a .2 per cent assessment on their selling price. The law is exceptionally stringent regarding these lines of goods. It emphatically states that proprietary medicines made from "any private formula, secret or occult art and used as remedies for diseases or affections" are included in this tax.

Commissioner of Internal Revenue Roper, at Washington, has recently decided that many of these patent remedies are insufficiently medicated to render them unfit for ciently medicated to render them that for use as a beverage. This has resulted in many of the manufacturers either modify-ing their formulas or diminishing the quan-tity of alcohol in their preparation, for Commissioner Roper has already made out a long "blacklist," and he states that unless there is a great change numerous of these "remedies" are going to pay tixes as liquors instead of medicines.

Mr. Roth, who left Germany with Ambassador Gerard, was possessed of exceptional facilities for observing the German temperament and penetrating the official plans of the Prussians.

The suite where a card-index of American "crimes" is kept with German thoroughness, the "diabolically cold precision" with which the military leaders have laid out their future operations on this side of the Atlantic and the fate which will befall America and Americans if Germany wins the war are all depicted in this vivid account of the secret schemes of Germany.

In addition to the Roth revelations, the Sunday PUBLIC LEDGER will contain sixteen other features of primary importance.
