HAIG'S DRIVE GAINS AGAIN; BIG ALLIED BLOW COMING

GERMAN LINES OF CANADIANS DRIVE ON ITALY

Another Powerful Blow in Flanders

"GOOD PROGRESS" AGAIN REPORTED

Maple Leafers Storm Positions in Outskirts of Passchendaele

PETROGRAD, Oct. 30. Teutonic troops in the Jaunzerne sector of the Russian front started a sudden attack yesterday afternoon and forced a retirement of Russian forces, today's official statement reported. "Their strong fire forced our retire-

ment," the statement declared. For a possible German dash on Petrograd the Russian Embassy today declared there are 1,500,000 Teuton troops massed in the Riga sector. Opposed to these, it was declared, there are some 4,000,000 Russians, but the morale of these Russian troops has been seriously impaired.

LONDON, Oct. 30. Field Marshal Haig struck another pow-erful ground-gaining blow against the German line in Flanders today.

"North of the Ypres-Roulers railway we attacked at 5:40 this morning," he re-ported. "Good progress was made."

British forces today are on the outskirts of Passchendaele. The new drive brought them closer to the ridge city.

The Canadians again had the post of honor, storming positions fifteen feet higher in the village.

Canadian troops swarmed up over

Mescheele spur and advanced to the crest
of Passchendaele ridge, crowned by the
town of Westroosebeke, in part of General Haig's new drive.

Holding fast to their new lines, the Maple

Leaf boys threw back a vigorous Bavarian counter-attack. The enemy was enfladed by machine-gun fire from captured Prus-sian machine guns, and what remnants reached the British lines were thrown back

Vestroosebeke is the town at the outermost end of the Passchendaele ric proximately three miles northeast of Poel cappelle and about the same distance due north of Passchendaele. From Westrocse-beke the ridge drops off into the level flats of Flanders.

The Germans' gain over a 500-yard front around Caurteres Wood yesterday were completely won back today by the French. according to the official statement issued

The statement also said that additional German attacks were repulsed. Active ar-tillery fighting was reported on the Chaume Wood and Bezonvaux sectors.

FRENCH FLIERS' GREAT WORK HELPS TO SCORE VICTORY IN FLANDERS

General Cadorna's plans for a stand which will halt the great Germanic invasion.

Austria has been forced to promise Trieste to Germany as the price for the Prussian aid in the drive, according to well-DERS, Oct. 30.

So perfect was the co-operation between aviators and French guns that throughout the day of this advance no German battery fired more than six shots before it was located by the French eagles of the air, who accurately "ranged" the distance and wirelessed back and French guns the standard back and French guns t

lessed or signaled back and French guns-put it out of commission.

This was on Sunday. The day dawned bright, crisp and clear—the air more clear than at any time in two months. The French had previously concentrated a remarkable number of planes and guns in this particular sector of Flanders. They got on the job at once. French alrean took

French airmen took to the air. They got the jump on the enemy, assuming the initiative and attaining complete mastery. Not only that, but they kept this mastery throughout the day. French fighting planes in the "first aerial defense lines" drove back Boche fighters. Fast auxiliary "line" planes swooped down over German trenches or roads just back of the enemy lines, spray-ing the troops with machine-gun bullets. Special "advance" planes ducked far behind the German lines to drop bombs on mu-uition dumps and depots.

Meantime observation planes hovering ever the German positions, and protected by the other "lines" of French planes spied out all the enemy's secrets and communicated them back to French stations. There were so many of these observation planes and so elert were their occupants that they

spotted German guns on their first shots,
Their range estimates were deadly in accuracy. French batteries put German guns
out of commission so often that at the
close of the day it was estimated the French

Udine, the most important city on the plains of northeast Italy, has fallen before the mighty Teutonic invasion, ac cording to the announcement made today in Berlin, which also declares that the advance is proceeding all along the line.

Nevertheless, there is reason for believing that Von Mackensen's offensive is losing something of its initial intensity, if it is not actually slowing up. Rome insists that Cadorna continues to check the enemy while massing his troops for a stand on the Tagliamento River, and London quotes correspondents at the front as declaring that Italy's soldiers are "paralyzing the enemy's advance groups" and at Arditi have wiped out great bodies of the Austro-German army.

The general belief in military circles here is that General Cadorna is slowly but suc-cessfully massing his strength toward the Tagliamento River, with the evident plan to make his stand behind his splendid forti-

fications along the river. All Italy is confident the military situa-tion will clear in a satisfactory fashion within the next two or three days. Com-plete confidence was expressed today in General Cadorna's plans for a stand which

FORMER LEADER SHIFTED

Count von Hertling has been named Ger-man Chancellor, and the present Chancellor, Dr. Georg Michaello, has been shifted in Prime Minister of Prussia, according to an Amsterdam dispatch by the Wireless Press

Count von Hertling is at present Premier of Bayaria. Recent dispatches have men-tioned him repeatedly as being under consfderation as German Premier. He is now in Berlin, having arrived for a conference with the Kalser on Sunday.

Von Hertling is a pan-German and Jun-ker supreme. He is one of the oldest of the German statesmen and has repeatedly given evidence of arrogant contempt for all government by the people.

Dr. Michaelis, by virtue of his present office as Chancellor, has been also "Minis-ter President," or Premier of Prussia. If the dispatch above is confirmed the change simply means that Michaelis is demoted

dom.

If possible, the allied Governments, meaning particularly Great Britain, France and the United States, incend that the war shall be won during 1918. They are prepared, or mean to be, to carry it still longer if circumstances require. President Wilson has suggested the only time limit on the war and he has said that it shall end only when victory has been won, autocracy crushed and the world made safe for democracy.
