#### JUBILATION BONFIRES BARRED TO SAVE FUEL

#### Continued from Page One

City Authorities Will Enforce Election Day Ordinance at Lewis's Request

There will be no wood going up in bor ares on election night. In response to a uest from Francis A. Lewis, city fuel iminiatrator, for such aboiltion in refer-ce to the city's fuel conditions, the fol-sing communication was today received the fuel administration office:

Department of Philadelphia Bureau of Police.

of Police. Prancis A. Lewis, Esg. My Dear Sir-Your communication of October 25 has been referred to Director When and in reply I have been in-structed to advise you that the inclosed police order has been issued prohibiting beinfree on the night of election day. DONFIRES ON NIGHT OF ELECTION

DAY First. For many years a general order as been issued, prior to each primary nd general election, which in addition o other subjects on election day, pro-hits benfires on the highways; but a umber of complaints are received on very election night of violations of the refer.

Second. As it is a breach of ordinance to make or assist in making any bonfires on the streets or in the public parks. Scopt when necessary in connection with laying gas or water pipes, etc., every member of this bureau must give atten-tion to the matter, extinguishing any bonfire he sees and wherever possible arresting the offenders. Third Patrolmen detailed at polling

Third. Patrolmen detailed at polling places on the evening of election day, awaiting the count of the vote, will also pay special attention to this order and enforce it in the vicinity of all polling places.

By order, JAMES ROBINSON, Superinterdent, Approved, William H. Wilson, Director. "I think I shall also take a little auto mobile ride Tuesday night, on my own ac-count, to see that the order is enforced," Chairman Lewis said.

That no immediate adoption of the socalled Storrow plan for unifying coal charges is contemplated or has even been definitely considered by the local board was made clear by Mr. Lewis.

"If Mr. Storrow was in town yesterday, It was not for the purpose of seeing me. I knew nothing of his presence here until informed that he had been in conference with me yesterday by one of the morning papers." Mr. Lewis said this morning. The great and all-pressing coal problem of the hour is the relief of the coal short-

age. Even the important question of price regulation must come second is the opin-ion of the local committee.

Coal supplies are reported to be or their way to this city and to have passed well below Norristown, according to H. B. Tyson, chairman of the Montgomery County Fuel Commission. Although coal has been freely passing for several days over the railroad in that vicinity, much of it is believed to be intended for the New York and northern New Jersey markets. Phila-delphia's turn is said to be next for relief.

#### **DEUTSCHLAND CARGO** BURNS IN BALTIMORE

Fire on B. and O. Pier Destroys Submarine Equipment Valued at Several Thousands

BALTIMORE, Nov. 2. - German submarine equipment, said to be actually worth theusands of dollars, brought to America by the undersea merchantman, the Deutschland, forms part of the loss from

The equipment was brought to Baltimore and Ohio pier fire at Locust Point, on Tuesday night, which is believed to have been started by German spies. The equipment was brought to Baltimore by the Deutschland to be used in repairing future merchant submarines scheduled to come to this port, but which never arrived. The Collector of Customs ordered an in-The Collector of Customs ordered an in-ventory of all imports on Pler No. 9 made and it, was then the German property | loss was uncarthed.

BANKER SCHIFF WARNS AGAINST OVERTAXATION AND LESSENED VALUES

wuntry we have a great mass of prosperous workers who ordinarily spend the whole, or imost the whole, of their income, and who

habitual saving and investment? In this placed upon revenues. Our preparations have been nithined upon the only safe theory—that the United States has become a participant in a war of extraordinary magnitude that will be of upneual duration. Our fiscal policy must fit that theory. yet are in a position both to hear burdens of taxation and to make some savings from bi taxation and to make some saving their incrms. There are millions of skilled artisans, salaried men and women, well-to-do farmers who go their way with ease in ordinary times, and when the ordinary ma-

MANY UNTOUCHED SOURCES

"While resort cannot be had to many ordinary times, and when the ordinary ma-ohinery of taxation and finance does touch. It is not desirable to apply to this large stratum of the community any burdensome direct taxation of incomes. True, some di-rect levy on them is made through the present remodeling of our income tax, and the limit of computing farmerly \$5000 to surces of revenue for sound economic rea-ns, while some will not be because of political expediency, there still remain many untouched sources and heavier levies can be made upon present ones without impos-ing burdens that cannot be justified. the limit of exemption, formerly \$2000 to \$4000 a year, has now been reduced to \$1000 to \$2998. But the rate of tax upon

"For instance, many believe that with the recent revenue law the limit has been reached in the impositions that may be placed on incomes and excess profils. I

\$1000 to \$2395. But the rate of fax upon the lowest incomes now brought within the purview of the tax is rightly left moderate, and this application of the income tax is rather a response to a question of principle than a probable means of attaining a sub-stantial increase of revenue. placed on incomes and excess profits. I am not in accord with that opinion. If the war is prolonged over many years, as it is quite probable, as we have not nearly exhausted our ability to obtain revenue through taxation, it is the part of wisdom to increase quickly our revenues. Four billion dollars annually does not begin to neasure the possible revenues of the United States.

"One fact should be emphasized so fordithe fact should be emphasized so ford-bly at this time that the police of the American people should not be capable of misunderstanding. It should be proclaimed breadly that neither the individual nor any group was entitled to inordinate profis from the necessaries of the Gevernment, and the necessaries of the Gevernment, nor would they be permitted.

FUTURE OF NATION AT/STAKE

1 of substantial parts of these incomes to the Government through the broad distribution of public loans is feasible upon a much larger scale thin has before been supposed. It offers in many respects great advan-tages. The small bond huyer is is the aggregate an important personage. And when he is reached by proper machinery and proper propaganda he will respond generously and quickly. At the same time, the wide distribution of public loans is the most effective antidote to those undesirable aspects of great public debts which have caused them to be most strongly opposed. It means the permanent maintenance of taxation for the purpose of meeting interest upon the debt, and so the permanent diver-sion of income from the great mass of the taxpayers to the smaller number of holders of public loans be not solely among the rich and well-to-do, but widely disported in well-to-do, but widely disported in well-to-do. "I speak not as an enemy of wealth or of one hostile to successful industry or to proper rewards for the exercise of that peculiar genius essential for the conduct of exceptional enterprise. The future of our people, as well as the fate of civilination and the continuance of democratic in-stitutions hinges upon the outcome of this war Individual ambitions, or interest, of prospects must disappear before the greater objective—the welfare of the nation. No sys-tem of tax ition can be devised that will apby with exact equality to every individual; the necessities of the Government cannot be supplied without business disturbances that will work cruel hardships in some direc-tions. No one can predict in what direc-tion he will be asked to make merifice or and well-to-do, but widely dispersed through every class of the community--then some of the most undesirable features assume an exceptional burden in the on-ward progress of the nation to its ultimate end. Many will be called upon for the su-preme sacrifice of their lives, some will then some of the most undesirable features of the resort to loans will be, if not entirely bylated, much mitigated."

be tolerated whose grievance rests in the contention that his material prosperity has been arrested or affected in the necessary marshalling of the country's energies. 'TEDDY' FIRES CROWD

"It is not my purpose to attempt to de-tail the sources which may still be tapped for additional revenues. This is not the occasion for me to do so. The pressing need at this time is to bring home con-vincingly to the masses that they must be prepared to endure much greater burdens from taxation. The country must be per-suaded to change its extravagant and wasteful habits and to cultivate thrift, During such a crisis the people should not expect to spend as lavishly or to indulge insurious tastes as freely as in the days of peaceful prosperity. The nation must

ils obligation in full. REACH PUBLIC CONSCIENCE.

"Even if there were not other soul

Even it there were hot other sound and imperative economic reasons, that ef-fective method of reaching the public con-science would justify resort to extraordi-nary methods of taxation at this time. No system should be tolerat. I that will paralyze industry or breed discontent; none should be avoided essential to provide the revenue imperatively required and that will distribute the resulting burdens squitably as experience and knowledge dic

U. S. PREPARED FOR FINANCING

Prof. Frank Taussig declared this morn ng that the United States was prepared fo ing that the United states was prepared to var financing, both in ordinary financia machinery and in taxing machinery. The noome tax machinery can be utilized in collecting other taxes, and while it is fafrom perfect it is immensely serviceable. If we had to build such machinery now we

would have to wait a year or several years before we could raise a revenue anything

and its products will be checked, Food Plants milling less than 100 barrels daily vere exempt in the general orders baued by millers on September 19 governing the Administrator Hoover announced today, under regulations to be issued tomorrow governing ginners, seed buyers, merchants, in the whole process does any one receive crushers and refiners, who now are being placed under license. Administrator Hoover said that the chief

object of the regulations will be to protect the producers by controlling the various factors who handle cottonseed on its way to the consumer and to see that at no step

more than a reasonable profit. The new rules will provide that mer-chants or send buyers shall not keep or "Consumption taxes, again, in the way of import duties and excises, doubtiess can bring in something substantial; yet these also lead to some undesirable consequences, and there has been a proper hesitation from hand for a period longer than sixty days any quantity of cottonseed exceding twenty tons. A crusher of cottonseed will not resorting to them at very high rates. On the other hand, the voluntary handing over of substantial parts of these incomes to the Government through the broad distribution of public lears. be allowed to have on hand or under con tract any greater quantity of seed than i equal to his normal crush for sixty days nor to hold any cottonseed for a longer period than sixty days, except during actual operation of his mill. It will be unlawful for any crushers to hold any oils for a longer period than sixty days or to have on hand at any time a quantity of oil exceed ing their production for thirty days.

Profits on any sale of cottonseed, cattor Profile of any sale of ectionseed, cotton-seed oil, meal or cake are to be determined not by the market or replacement value at the time of sale, but shall be no more than a reasonable advance over the cost and expense of doing business.

## WILL RECEIVE GERMAN GOODS BOUGHT IN U.S.

Millions of Manufactured Products, Already Paid for, to Be Delivered

LONDON, Nov. 2 Millions of dollars' worth of manufac-ared goods, hought in Germany and Austria by American importers and paid for prior to the entry of the United States into the war, will be permitted to come through a this country.

The State Department announced this afternoon that an agreement had been reached with Great Britain, following months of negotiation, whereby the Ameri-can importers will be allowed to move their purchases from Rotterdam to New York. A full list of all American gooda held n warehouses in Rotterdam was comp by the legation at The Hague and for-warded to the State Department. The list was submitted to the British embassy. The British embassy held that only those im-porters who could prove their merchandise was paid for before April 7 of this year should be allowed to move their goods.

WEST CHESTER, Nov. 2.-The congre-gation of the Second Baptist Church, of this sation of the reconst Baptini Church, of this place, has extended a call to the Rev. A. J. Henry, who formerly held a charge at Ab-tantic City. He also has received a call from a church at Carilele and soon will make his choice.

restricted list, while the which community is the fertile field which the templater reaches. In addition to increased postane you have the greater cost of printed mat-ter due to higher price of paper and in-creased cost and scarcity of labor. De-partment stores in the large cities would

not spend millions a year in newspaper advertising if the resultant sales did not warrant it.

"Business firms who are regular news.

"Business firms who are regular news-paper users secure larger lines of credit and make loans more easily at their banks. Their perisistice in advertising is taken as an index of progressive management." Mr. Beriet deplored the suggestion that electric signs and night window displays be eliminated as very little fuel would be aved, not more than 1 per cent, he said.

Bantist Pastor Considers Two Calls

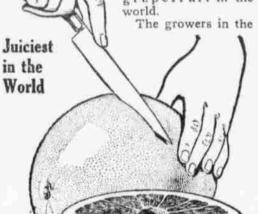

## **First Allotment of the Delicious TROPIKO GRAPEFRUIT** for Philadelphia on Sale Today

We have obtained for Philadelphia a consignment of TROPIKO grapefruit, the choicest selection from Porto Rico's leading growers, and it is being distributed among the more important grocers and fruit dealers.

Do you remember the best grapefruit you ever ate? A fruit that was full of rich juice, just sweet enough, with

just enough tang to give zest to your whole meal? That grapefruit probably was grown in Porto Rico. This American island produces the heaviest.

richest, most luscious grapefruit in the world.

Porto Rico Fruit Exchange have adopted the name TROPIKO to identify their finest fruit. All TROPIKO fruit is of unvarying quality inside. There are slight variations in external appearance -in color and texture of skin. These are marked by five different colored Rays: Gold Ray, Blue Ray, Red Ray, Purple Ray, and Bronze Ray.

There also is the usual variety in sizes. Every piece of TROPIKO grapefruit is crammed full of healthful, luscious, thirst-quenching, appetite-sharpening juice. A TROPIKO grapefruit or orange contains the minimum of pulpwhich leaves the more room for juice. The meat is soft and tender. The flavor is delicate and satisfying. It is the kind of fruit that the most luxurious hotels in the country serve to their patrons; yet it costs you only a little more than ordinary fruit. You can taste the tropics in every drop of TROPIKO juice-summer suns and clean, cool ocean breezes have made it delicious.

You don't have to pick over TROPIKO fruit. Every piece has been selected for you by fruit experts. Our contract calls for a weekly shipment of grapefruit, oranges and

pineapples in season. Ask your dealer this morning for a sample order of TROPIKO grapefruit. If he has none ready for you, let us know and we will tell you where you can get it. Why not rut up some TROPIKO grapefruit marma-lade? It is the most delightful feature of a good breakfast. The name TROPIKO is on every wrapper

# A PLEDGE OF WAR SERVICE

As a part of our war service in this great crisis, THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE U.S. hereby pledges to invest, in future United States War Loans, the amount of its income received from first year premiums on insurance issued during the continuance of the war.

Thus Every Dollar Paid for New Insurance Will Also Mean a Dollar Loaned to the Government to Help Win the War.

This action will supplement and aid the patriotic work of our Field Forces in carrying the Nation's urgent message for war-thrift, war - sacrifice and war - service in its various forms, into the business places and homes of the people in this hour of national peril.

Our Policyholders, Numbering Over Half a Million, Are Urged to Co-operate in This Effort to Enlarge the Society's Public Service at This Time.

THE EQUITABLE LIFE ASSURANCE SOCIETY New York, Nov. 1, 1917.

W. A. DAY, President

# Use Sugar Sparingly-Do Not Waste It

Everyone-manufacturers and householdersshould use sugar sparingly for the present.

The supply is limited and will be until the new crop of cane can be harvested and shipped from Cuba and the Tropics. The supply will then be ample.

In the meantime, the people of the New England and Atlantic Coast States should use sugar sparingly.

Grocers should limit their sales to any one family. No one should hoard or waste sugar. Do not pay an increased retail price.

The Franklin Sugar Refining Company "A Franklin Sugar for every use" Granulated, Dainty Lumps, Powdered, Confectioners, Brown
