droves through Blair Arch. You meet Fieves. them in the University Store, and you can't escape them by leaving the campus, for you will see a flash of khaki in all the highways and byways. Even the clubs have their share in the general excitement, for officers are quartered within their sacred precincts! And in the midst of all the confusion little black-capped freshmen and a mere handful of upper class men walk around in a dazed sort of way and wonder what has happened to their college life.

Over the week-ends the fond Mammas go down to see their Bobbies and Neddies who are learning to fly, and the pretty little warbrides enjoy a few brief hours with their dignified officer husbands.

Last Saturday society was drawn from New York and here by the double attraction of a good old-fashioned football game between the heroes of Camp Dix and Princeton University, and the wedding of Miss Lillian Black, who is the daughter of Mr. Howe, of Princeton.

DID you know Alleen Sedgwick has de-cided to be married on November 14. of her aunt, Mrs. J. Rich Steers, at 37 James Blackstone Taylor, Jr., who is the Mrs. James B. Taylor, of New York, is from November 26 to December 1. in the aviation corps, and expects to join the American aviators in France very soon, so the wedding has been hastened.

Alleen, as you will remember, visited in this city a number of times as the guest of Jean Bullitt and was extremely well

VERY many people get a bit warped V at times on their ideas of a joke, don't you think? They tell me that some one out Germantown way recently has decided that it would be a funny joke to call up her friends and say she is Nancy Wynne and then proceed to ask many personal and decidedly impudent questions. The trouble about those funny jokes is that whoever is thus calling herself Nancy Wynne fails to state that she is not, before the conversation ends, and leaves a most unpleasant impression.

You see, if the truth were told, Nancy Wynne never calls up and asks people for information, and no one has ever been given authority to call up in her name. In fact. Nancy does not talk over the phone and any communications for her must always be in letter form.

It's a poor kind of joke that discredits another, don't you think? And it is never Nancy's aim to write of things people do not care to have spoken of until they are ready to have her speak of them. So I'm afraid the joke has fallen rather flat. because, you see, it's come to our ears and we know all about it.

OUTDOOR fairs, bazaars or carnivals, whatever you or the committee in charge choose to call them, are always successful, but then why shouldn't they be, with pretty girls floating around, "touching" unsuspecting masculinity for his last dollar, to take just one chance on a beautiful gold wrist watch, assuring down with jars of pickles for Mother,

let himself in for whatever he got. But when one has been in this world for only alx short months, and sees one's own mother being lost to view in the crowd gathered about an especially attractive booth and suddenly discovers one's self in danger of being raffled off with pigs and wrist watches-well, there's a limit to everything. So, as soon as little Miss Martha T- had gathered from the strange people who were making faces at her and tickling her on the chin to make her laugh (as if there were anything funny in that), at one of the many recent fairs of this kind, that a sign was about to be tacked up on her coach, reading. "5c a Look," she let forth a wall of such Unusual carrying power that Mother came quickly to her side, bringing a Torgeous red-white-and-blue rattle-and the first great catastrophe in Martha's very young life was averted.

Moral: Check your babies and your pocketbooks at the gate upon entering fair grounds-and enjoy yourself!
