ENGLISH SUFFRAGETTES REORGANIZED FOR WAR

LONDON, Nov. 2.—England's famous suffragette organization, the Women's Social and Political Union, reorganized today on a war platform. The women, who in before-the-war days tried every means to embarrass the Government, now appear as its firmest supporters in the war against Germany.

The platform, it was announced, includes a pledge to fight "until a victory will make it a physical impossibility that Germany can ever wage another war." The women urge food rationing, drastic curtailment of nonessential industries, better co-ordination

of all allied military efforts and an alliance between the Allies to continue after the war. Mrs. Fankhurst is to address an initial mass-meeting of the new organization next Wednesday.

He was a stranger to us. But he seemed to know all about Rival shoes. He knew they were cut from dependable leathers. He knew how strongly they were sewed and how stoutly they are made. He knew they have insoles of genuine leather, which makes them hold their shape and permits of satisfactory re-soling. We found out later how he got his inside information. He was a cobbler!
