## Women's League for Good Government Held Luncheon at Art Alliance Building Yesterday. Tommy Wonders About Engagements and Marriages

THE New Art Alliance Building offered a novelty yesterday in the shape of a voters' luncheon in aid of the Town Meeting party, which Mrs. Yorke Stevenson had arranged. At 1 o'clock a couple of hundred well-known men and women met there to lunch together and listen to speeches, political and otherwise, from greeches, political and otherwise, from as possible. Thomas F. Armstrong, Thomas F. Mc-Mahon, both of the Town Meeting party ticket; Somerset Bryan Scott, Mrs. Cornelius Stevenson and Miss Agnes Repplier. Quite a galaxy and a most unusual combination of attractions to offer. Doesn't it just show that good national citizenship means good local citizenship when two women who have been spending themselves as Miss Repplier and Mrs. Cornelius Stevenson have been doing in their nation's service feel the call to help make their city a safe place to live This luncheon is the last scene in very lively and successful campaign which the Women's League for Good Government has been waging in support of the Town Meeting party. For the last two weeks Mrs. Samuel Bryan Scott, Miss Florence Kane and her sister, Mrs. Foulke; Miss Elizabeth Kirkbride, Miss Sophia Dulles, Miss Mary Converse, Mrs. C. Watson McKeehan, Mrs. Arthur Lea, Mrs. John Oakley and a host of other well-known civic-spirited women have been slaving for the league. To the luncheon each woman invited was allowed to bring one Town Meeting party loter-this meant a hunt for registered obters, and so many men had not registered that it certainly was some hunting to find acceptable escorts who were. .

FTER the Theatre Meeting held by A the League last Tuesday, in which the close connection between corrupt city governments and the service to the soldier and sailor boys in the national camps was so stirringly brought out, a letter arrived from a Philadelphia boy who is fighting in France, a brother of one of the active campaign workers. The following paragraph was so extraordinarily apropos to our local politics that the league has printed and distributed it by the thousand. Listen to it:-

"George wanted to know what could be done to help out 'over here.' I will write and tell of anything I see; but one thing is sure-that there is no fun in fighting to save democracy for a lot of grafting politicians, and nothing would put more 'pen' into me than to know that the people at home were awake to their civic responsibilities. While I believe that eventually we will win out, we have a hard job on our hands and graft is as much of a foe as autocracy."

MOMMY'S sister is engaged, and the L best thing the family does is talk about engaged people, engagements and engagement presents. Vaguely, Tommy realizes that getting married has something to do with being engaged, although the exact connection is decidedly a thing that means nothing in his young life. The other day he was sitting on father's lap, trying not to speak until spoken to, and sister and some of her friends were in the room. One of them spoke of an engagement that had just been announced. That was something in his
line, so Tom pricked up his ears. "I
never," continued the fair gossiper, "I
never saw two people so different; v.hy, never saw two people so different; why, you'd never in the world think that she'd marry him." This was something new. "Father," exclaimed Tommy, forgetting to keep his voice down, "when people get married do they choose the one they

OFTIMES, it's the little things that count a whole lot, isn't it? And the wee people who sometimes do these little things-well, even they, with all their thildish pride in the doing, don't realize the good that may come from them. Now, one day last week a small youngattar from nobody knows where walked into the headquarters of the Overseas Comfaittee of the Emergency Ald (that must have been an awf'ly big name for him % read, don't you s'pose?) and, in a most business-like voice, asked a rather amused lady in charge:

"Is this where you send things to soljera?"

"Yes," was the reply.

"Well, can you buy things here for soljers, too?" continued our diminutive friend. And he proceeded to hurl questions thusly at the astonished Miss until he must have accumulated a vast amount of information about his soljers. Then, gravely, though with much fumbling and pulling the wrong thing out, he drew from his pocket a small almond bar and handed it to the no longer amused young lady.

"There," very earnestly, "could you send this to the soljers?" And then he hurried out. But think of that wee kiddle denying himself precious bites of chocolate so that some one elso might have them and be able to fight better! It's a fine spirit, ian't it?

### TO GIVE PLAY ON THURSDAY EVENING

Junior Auxiliary of Swarthmore Woman's Club Will Present "The Mission of Letty"

The girls of the junior auxiliary of the Swarthmore Woman's Club are working hard over a little play they are going to give at their hext meeting on Thursday evening. The play is called "The Mission of Letty," and those taking part in it are Miss Melanie Dolman, Miss Grace Stockton, Miss Melanie Dolman, Miss Grace Stockton, Miss Morris, Miss Marion Woods, Miss Alice West and Miss Winifred Koukie. Mrs. Clifford is coaching the girls. The junior auxiliary was just organized this fall. It meets every week and really is doing splendid work. Just now the members are studying the history of France and each one must make a report on some phase one must make a report on some phase of the subject. All this is quite interesting to the girls, as well as providing valuable

On Sunday morning sixty-seven of the drafted men from Ridley Park and the neighboring towns left for Camp Meade. The men gathered at the Ridley Park Station, and there each one was given a most inviting package of lunch. Some of the women of the town, with Mrs. Charles G. Hetzel at their head, had prepared these lunches. The Sunshine Society also distributed cigaretties in a very generous way. Certainly, these little extra comforting things do a lot to cheer the men and send them away with happler hearts!

DANCE GIVEN AT LANSDOWNE HOME

Plans Changed for "Potlatch" Given This Month for Red Cross

On Wednesday evening Mr. and Mrs. Thomas M. Fitzgerald gave a large bal musque at their home on West Baltimore ave-nue, in Lansdowne. The dance was held in the ballroom, which was filled with pink and white chrysanthemums, and a supper was served in the conservatory. Of course, every one came masked, and there were some very stunning and original costumes. The guests were Mr. and Mrs. Charies J. The Indian potlatch, which the Lansdowne Red Crossers are to have on Friday and Saturday, is not going to be held at the Red Cross house, as had been planned. There is such a very urgent need for sur-gical dressings at present that it was felt that the women who are busy making these all the time should not be deprived of their workrooms, if only for a few days. So the affair will be held on the second floor of the Barker Building, which is right in the center of the town. The large hall will be converted into an Indian warpath and in various smaller rooms will be the different

Miss Emily Grace will have charge of the war garden room. This summer Miss Grace had a large garden of her own, and she has canned a great many of the vegetables that were raised in it. These will all be for sale, besides numerous tumblers of very good jelly.

There will be a utility room with agate pots and pans (or tin ones, if you prefer them), aprons, dust caps that are really oming and other useful things. Mrs. Love will have charge of these things. One corner of the warpath will be taken up by a little frontier store with everything for sale there that could be imagined—from gingham to vegetables. Mrs. Garretson Cook will be the "storekeeper."

Now, there must be a cake and candy table at a fair, but with sugar playing hide and seek how can there be one? And especially it said fair is given for the Red Cross. However, the women thought and thought and at last decided to make heaps of candy but, instead of sugar, molasses of candy, but, instead of sugar, molasses and honey will be chiefly used. Mrs. John and honey will be chiefly used. Sirs, John Selenberger is studying up all sorts of delicious new recipes, so the candy is sure to be the best ever. At a recent meeting in Germantown the speaker referred to the many places of inerest in Germantown and the Falls of Schuylkill and remarked that, "while many persons were acquainted with the early hisory of the Falls and the prominent mer who had at one time lived in the village, yet few can tell anything about the man in whose honor the only public school in the illage is named, Samuel Breck." The Falls has especial reason for attracting the tention of the friends of education. It ere that the first provost of the University of Pennsylvania and the first Governor of Pennsylvania under the Constitution, who was by virtue of office the first president of the board of trustees of the same great institution, lived on large estates. It was here that Joseph Neef introduced the methods of Pestalozzi into this country. So why call the school Samuel Breck instead of William Smith. Thomas Mifflin or Joseph

Samuel Breck, a Senator of our State, labored for free schools in Pennsylvania and was made chairman of the joint committee on education of the two houses, and was on education of the two houses, and was specially appointed "for the purpose of digesting a general system of education." He went to the Legislature for the purpose of using his best efforts to secure the establishment of a system of common schools in the State. The general school bill, introduced by him, passed the House of Representatives and the Senate in 1834.

Samuel Breck's father bought a home in Philischphia concester Washington's and Philadelphia opposite Washington's and brought his family here from Boston, Mass.; so Samuel lived in "great pomp and ceremony after manner of the rich men of his day." Later he occupied an estate in Fairmount Park called Sweet Brier. It was here that he entertained Washington, Lafayette, Robert Morris and other distinguished men of his time. He was born in 1771 and lived almost a century through the most eventful period of American history. He received his education in the monastic schools in southern France.
