

EQUALIZE WORK AND PAY IS JERSEY IDEA

Experts Recommend Plan to Add to Efficiency of State Civil Service

TRENTON, Nov. 16. Equalization of compensation with definition of governing advancement, the regulations governing vacations and sick leave hours of work, holding positions in the classified civil service of the New Jersey State government, is recommended in a report of J. L. Jacobs & Co., of Chicago, which was submitted today to the State Civil Service Commission. The commission, organized by the Legislature in 1915, is authorized by the Legislature to classify positions in the civil service with reference to the work performed and to suggest standard salaries for these positions.

U. S. INDUSTRIES NOW 80 PER CENT EFFICIENT

Reports Show Marvelous Progress During the Last Six Months

WASHINGTON, Nov. 16. American industry has accomplished a remarkable change in complexion in the last six months.

Reports to the War Industries Board and the Council of National Defense show that American industry is now approximately 80 per cent efficient in war work. This means that American factories are meeting about 80 per cent of the needs of the Government in its conduct of the war.

Conversion of factories to war work has been accomplished largely through the Council of National Defense and the War Industries Board. A study of the needs and the equipment of factories of the United States was made, and it was found that many might be easily diverted to war work. In no instance has there been a refusal of a full staff of physicians, surgeons, orderlies, enlisted mechanics and other workers necessary to man a complete hospital.
