

EXAMINE SOLDIERS FOR TUBERCULOSIS

Philadelphia Physicians at Camp Dix Keep Plague Out of Army

OTHER CITY NEWS BRIEFS

Man and Boy Injured by Automobiles in West Philadelphia Accidents

Philadelphia physicians have launched a drive to prevent the ravages of tuberculosis in the army. Seventeen local physicians are examining more than 1000 men a week at Camp Dix in order to weed out any who might be afflicted with the disease.

This examination is part of a national campaign. It was learned, which will aim to prevent a repetition of conditions which prevailed in the Allied armies at the beginning of the war as a result of the swift mobilization, which brought together many men afflicted with the disease.

Only enlisted men are being examined as many of the officers came from the training camps where they underwent the strict physical examinations.

Old Man and Boy Auto Victims
Five-year-old Hugh Logan, 623 Conestoga street, and sixty-one-year-old Thomas Bookley, 218 Gross street, are in serious condition today at the West Philadelphia Hospital as a result of being struck down by motorcars yesterday.

The boy was run down at Fifty-fourth street and Cedar avenue by an automobile driven by J. H. Taylor, 5025 Spruce street, and Bookley was struck at Sixty-third and Callowhill streets by a car that did not stop.

Electric Lights Out to Save Coal
National Fuel Administrator Garfield's order to save coal by sparing use of electric light signs went into effect last night, signs in all parts of the city being darkened. The hours for illumination are between 7:45 and 11 p. m.

Yardley Wars Nurse Dies in France
Word was received of the death of Miss Miriam B. Knowles, of Yardley, a nurse with the American forces in France. Miss Knowles, who died of scarlet fever November 11, was the daughter of Mr. and Mrs. Thomas C. Knowles and a graduate of Wesley and Johns Hopkins.

U. S. Needs Women Typists
The Government has issued an appeal to patriotic women stenographers and typists to apply immediately for examination for positions in the gun division of the ordnance department at Washington. Headquarters in this city were opened yesterday on the second floor of the Franklin Bank Building, Fifteenth and Market streets. The salaries run as high as \$1400.

MISS ELIZABETH McSHANE

JAIL TERM TAKEN BY PHILADELPHIA WOMAN

Miss Elizabeth McShane Will Serve Thirty-Day Sentence for Picketing

WASHINGTON, Nov. 16. Miss Elizabeth McShane, of Philadelphia, was one of three women who received jail sentences today for "obstructing traffic" by picketing the White House with suffrage banners. She was sentenced to thirty days in jail.

Mrs. Harvey Wiley, wife of the pure food advocate, was sentenced to fifteen days when she refused to pay a \$25 fine. Her attorneys gave notice of appeal, but Mrs. Wiley refused to give bond while the appeal is being taken.

Mrs. William Kent, wife of Tariff Commissioner Kent, also was brought to trial for the same offense. She was found guilty and given a similar sentence. In spite of her loud protests her husband paid her fine.

"I believe I am within my rights in refusing to pay my fine," said Mrs. Kent, "and that no one should be permitted to pay it for me."

Judge Mullooney held to the contrary and accepted the proffered \$25. Mrs. Kent immediately gave notice that she would file a demand for a new trial.

Twenty-eight other women, hunger striking at the Occoquan workhouse, were to have been brought to trial for Monday's picketing. Orders to bring them to Washington were given by Judge Mullooney last night, but the orders later were rescinded after President Wilson had conferred with two commissioners of the District of Columbia.

FROWNS ON PRICE BOOSTING

Chicago Board of Trade Demands Explanation From Three Traders

CHICAGO, Nov. 16.—After three traders on the Chicago Board of Trade had been called to the Federal Building yesterday to explain their participation in the speculative upward movement of prices of corn and oats, John R. Mauff, vice president, issued the following statement:

"The Board of Trade has never permitted the use of its machinery for any purpose detrimental to the welfare of producers or consumers, in other words, the public. With the beginning of hostilities abroad greater responsibilities had to be assumed, and the officers have in every conceivable way cooperated with President Wilson and the food administration in their efforts to handle the complications surrounding food stuffs."

NEW TRANSIT LEASE MAY PASS THIS YEAR

Mayor, After Conference on Amendment, Says Action Is Possible

When Mr. Mitten was asked if he thought the lease would be satisfactory to the company with the proposed amendments he said, "That's a big question." Others who attended the conference when questioned referred all questions to the Mayor.

The present plan is to have the amendments ready to be presented at a meeting of the joint congressional committee on Finance and on Street Railways next Friday afternoon, a week from today. Should no opposition develop to the amended lease, which is in the form of an ordinance before Councils, it could be passed by the present body before the end of the year.

Should strong objection to the revised lease develop, it is likely that the instrument would die with the present Councils and be left for further discussion and action next year. Because it is in the form of an ordinance it must be reintroduced in the city. The new Councils reorganize the first Monday in January.

Asked if he favored rushing the lease through at the last two or three meetings of Councils, the Mayor said he did not believe in rushing anything, but it is possible to get the lease in shape to be acted upon this year.

The suggestions discussed were not announced.

Builders Oppose Pipe-Laying Raise

A number of well-known builders appeared before Councils' Committee on Water this afternoon and objected to a bill designed to increase the cost of laying water pipe. The city's charge against property owners, in the past, has been \$1 a foot and proposed legislation would increase this to \$1.50. The increase has the approval of Director Datesman, of the Department of Public Works, and of Carleton E. Davis, chief of the Bureau of Water.

Perry's Have the Clothes!

Shop around and see with your own eyes the Suits and Overcoats that every store is selling at \$18, \$20, \$25, \$30 and \$35 and Compare them with Perry's!

There was never a time in the history of the clothing business when a man was so apt to find a wide difference between promise and performance.

The store that was caught short of the market by the sudden and severe advances in costs of woolsens and other materials cannot possibly give the same values for \$18, \$20, \$25, \$30, or any other price, that Perry's can; for we bought our goods early and in enormous quantities.

Therefore — Shop around! Look for good cloth, good tailoring and reasonable prices. If you see the qualities you have been accustomed to marked away up in the air—draw your own conclusions!

You'll find but little difference at Perry's between the values and prices of normal times and those here today!
