## JUST GOSSIP ABOUT PEOPLE

Big Affair to Be Given by Marines and Naval Reserves at Bellevue December 12 Under Auspices of Medico-Chi War Relief Committee

THE men who are getting up the show say they have been entertained so by many people at their homes royally and at their clubs and, at parties of all criptions that they are anxious to make some little return for all the kindness they have been shown. I think it will be great, for there certainly is much talent among them. They have asked Elisabeth Latta to sing with them, but the little lady naturally felt she would be too conspicuous as the only one on the stage with some forty-five men and so has gotten up a chorus of girls to be with She will sing several solos and a duo, with whom I have not yet heard. Mrs. William H. Greene will ask a numher of the younger girls to act as aides during the evening. And the Marine Band will play and 150 marines and 150 reser.es drill. Then there will be several speakers; so, believe me, 'twill be some party. I hope I'll be invited.

HAVE you ever been to the Little Gal-lery? Now, don't tell me you don't know where it is. Good night! Why it's in the Greble Building up on the fifth foor and the whole floor is filled with artists. And the little gallery is used to display the work of the various artist and artistes on that floor. I believe there is one Lone Man on the floor. Heaven help him, but still he's some artist, so it's all right. Be that as it may, little Nancy went up there yesterday to see Elizabeth Washington's work of a year or more which is being displayed this week. She does some splendid work. She won the scholarship at the Academy of the Fine Arts last year and the Mary Smith prize, too. She is a descendant of George Washington, you know; that is a direct descendant of his brother, and has certainly decided talent. Her paintings are going to be on exhibit the rest of this week, so if you take n.y advice you'll trot up to the Little Gallery, if only to see some of the delightful miniatures.

Beatrice Fox is on that same floor of artistes. She is at present working on a oust of Doctor La Place. There are several others, too, on the fifth floor, Janet Wheeler, Rose Young, Mrs. Read, Miss Archambault, Miss Winner, and they all wear smocks, even the Lone Man. By the way, the Lone Man's portrait of Pershing at present on exhibition in

the comfort of the thirty-eighth division "boys," so that each one may know that his friends are watching and caring for his wel-fare. All toothers and sisters of these men are not only invited but urged to help with the work, and all patriotic citizens of the division will support the organization.

The Women's Auxiliary of the Young Men's Improvement Association of the Fa'ls gave an informal dance last week at the clubhouse, on Queen lane. The decorations were patriotic in design and coloring Dur-ing the winter a series of these informal af-fairs will be given to help the stay-at-home persons to forget for a time the grim hor-rors of the war. The Graves Registration Service, under the di-rection of Major Pierce, of St. Matthew's Protestant Episcopal Church. Is doing splendid work that as yet is little known. This service work takes care of the dead, sees that proper burial and service is ren-dered abroad or that the body of the soldier is sent back home for burial, if his family desires; keeps a record of the place of burial, time, place and method of death. Major Pierce did the same service for the caintry in the Spanish-American war. The Men's Guild of St. David's has sent Christ-mas gifts to men in France and candy are among the gifts to be sent.

window and it's a wonder, all right.

DID you happen, by any chance, to cross Chelten avenue bridge, or try to make a train at that station, Monday, any time during the day? Did I hear groans? Well, talk about campaigns in Flanders, British drives and all that sort of thing-they have nothing on the drives that were directed against the wallets of perfectly innocent, overworked business men on their way to a strenuous day's work. And if the "early birds" thought they would escape, they were sadly mistaken, for there they were, all dolled up in their fur coats, with bright red cheeks not to mention noses), stationed on either side of the steps leading down to the trains, with cigar box in hand and a large T. M. C. A. band on one sleeve that ought to have been a danger signal to any one for some distance off. Some men apparently did believe in being on the safe side-of the street at any ratefor it was very obvious on one or two ocabions that they crossed over within half a block of the firing line, and one was seen to duck behind a milk wagon! Why even the joy of buying a morning paper was denied him, so closely was the newsstand guarded by those omnipresent "scalpers."

Really, though, it was wonderful how much they brought in, and especially the way every one responded to the needs of the Y. M. C. A., wasn't it? There were members of the gentler sex stationed at different posts all over Germantown, who were being relieved, most of them every two hours or so, in relays, while the young girls they had helping them seemed to take to "begging" quite naturally to judge from the looks of their wellfilled cigar boxes and milk bottles. Or, perhaps, you will say that it worked both ways-that the donors were excookingly generous. Some were, I'm sure, If the remarks which floated back to the sciplent of their recent fortunes could be taken seriously, such as, "There went my lunch, did you hear it rattle in that box?" or "Con's on, Bob, let's go over and buy us a newspaper."
