

START TEUTON HEGIRA UNDER WILSON RULE

Eight Aliens Lead Exodus From Barred Zone of Capital

OTHERS GET DAY'S GRACE

Ejection From Forbidden Areas in Philadelphia Waits for Formal Orders

WASHINGTON, Nov. 22. Just eight citizens of Germany had left Washington up to 2 o'clock this afternoon in pursuance of President Wilson's proclamation of last Monday declaring the District of Columbia to be a barred zone for alien enemies...

Approximately thirty others have appeared at United States Marshal Spain's office and announced their intention of departing as soon as they can after transportation and fill out the affidavits and other papers required in their cases...

About 100 others, who resided in the District of Columbia before April 6 and must leave by December 15, have appeared at the marshal's office and after registering, have announced their intention to leave between now and the middle of December.

It is believed that several others have left Washington without making their movements known to the Government, either through a misunderstanding of the regulations or a willful attempt to escape apprehension.

Those who appear at the Marshal's office are required to give a history of their residence in the United States, exhibit their railroad tickets, make affidavit of their intention to leave for a certain point, and name the point where they are going and the address at which they can be found.

REMAIN UNDER SURVEILLANCE They are instructed by the marshal to report in person to the United States marshal or the Mayor of the place for which they leave, who will in turn report their presence to the Department of Justice.

The marshal of their new residence will maintain surveillance over the Germans. In answer to telegrams from the Department of Justice informing the Mayors of large cities and United States marshals everywhere of the President's barred-zone proclamation, the department has received prompt replies from Mayor Smith, of Philadelphia, and Mayor Mitchell, of New York, giving assurance of their hearty cooperation in carrying out the proclamation.

The regulations for the districts outside of Washington have not been prepared and will be sent out as soon as ready and instructions sent along with them as to how they shall be carried out. Until then the department does not expect much headway can be made in Philadelphia and other places in deporting Germans from forbidden areas.

Yesterday was the last day under the President's proclamation for Germans to leave the District of Columbia, but, owing to the absence of the full regulations and the affidavit papers to be filled out by the aliens, they were given one day's grace and have until midnight to leave.

WILL ROUND UP DELINQUENTS. For the present the Marshal's office is taking charge only of Germans who report voluntarily, but in a few days will go actively to work in rounding up any aliens who have not obeyed the proclamation.

Under regulations now being prepared, aliens all over the United States will be required to report periodically to the United States marshals so a strict record of their whereabouts may be kept.

The fact that an alien has declared his intention to become a citizen does not prevent his deportation, neither does the fact that he owns property within the restricted zone. Since the outbreak of the war no Germans have been permitted to take steps toward naturalization. No declarations of intentions have been accepted and no Germans who had filed declarations previous to war have been permitted to take out final papers.

NEW YORK, Nov. 22. Fifteen hundred aliens, all males, were today notified by United States Marshal McCarthy that they must vacate immediately the waterfront zones along both the North and East Rivers. This action was in accordance with President Wilson's latest proclamation regarding the privileges to be extended to Germans now residing in the United States.

BALK PLOT TO BLOW UP A PACKING PLANT

High Explosive Discovered in Coal Delivered at Stockyards

Blame Car Shortage for Coal Famine

Continued from Page One. A quantity of giant blasting powder was found in coal as it was being taken from a car into the big plant of the Greenwald Packing Company at the local Union Stockyards today.

The police, who immediately began an investigation of the affair, said enough of the powder was found among the coal to have wrecked the plant had it been placed in one of the boilers. The government authorities have been notified.

As the Greenwald Company is working on Government contracts to furnish the various cantonments with meat, the opinion prevails that German sympathizers placed the powder in the coal, thus hoping to cut down the Government's supply of meat.

FORMER MAIL CLERK INDICTED FOR THEFT

Must Answer Charge of Stealing \$20,000 Package From Train

The Federal Grand Jury today indicted Robert E. McNamara, formerly a clerk in the postoffice at South Bethlehem, Pa., for the alleged theft of a package containing \$20,000, which had been sent by the Northampton National Bank, of Easton, Pa., to the Federal Reserve Bank of this city, for deposit, on September 12 last.

The package containing the money was taken from the train which had carried it from Easton to South Bethlehem, for transfer to a train running to this city. When it was discovered that the package was missing an investigation was begun by Chief Postal Inspector James T. Cortelyou and his assistant, S. C. Wynne, which resulted in the finding of the parcel, minus \$200, hidden in the barn on the farm of McNamara's father in South Bethlehem. The accused man refused to make any statement.

McNamara was also indicted in another bill for failing to account for \$147.50, the amount he is alleged to have received as a post-office employee for two money orders.

BALDWIN'S BREAK RECORD

Has Shipped 225 Locomotives a Month This Year

The Baldwin Locomotive Works shipped 225 locomotives a month this year, as compared with 160 a month last year, according to a statement of Alvin B. Johnson, president after a directors' meeting today.

"During 1916, 1920 locomotives were made," he said in part. "The locomotive production was largely increased and for the ten months ending October 31, 224 were shipped at the rate of 22 2/3 a month. This year's production will be further continued during November, December and the months of 1918. While our earnings have been satisfactory, the increase in production and increased cost of materials and labor have demanded a large increase in the amount of working capital. As the conditions have been unfavorable for any financing, there has been no alternative but to provide the increased working capital by borrowing. The directors have wisely decided that it is expedient to increase loans in order to provide means for dividends upon the common stock."

Adding that the amount of business now on the books breaks the company's records and that 20,000 men are employed, Mr. Johnson said that all shell business has been transferred to the Eddystone Munitions Company. All shell contracts were finished last year.

Thieves Steal Liberty Bonds

LAFAYETTE, Ind., Nov. 22.—Robbers obtained \$5000 in Liberty Bonds, \$200 of U. S. M. T. A. money and \$2000 cash of the State Bank of Evansville, early today. They escaped after the safe was blown and robbed.

NEW YORK, Nov. 22. Fifteen hundred aliens, all males, were today notified by United States Marshal McCarthy that they must vacate immediately the waterfront zones along both the North and East Rivers. This action was in accordance with President Wilson's latest proclamation regarding the privileges to be extended to Germans now residing in the United States.

SECOND DRAFT PLANS SPEEDED UP BY STATE

Questionnaire for Conscripts to Be Sent to Local Boards Next Week

Fix Coal Price Scale for Small Quantities

Continued from Page One. committee, and its hoped-for solution of their troubles in supplying consumers.

"Splendid," it was termed by J. E. Kunkel, sixty-third and Market. "It will mean a lot of detail work of course, but we're not at all afraid of that. It ought to put an end to the 'shopping around' evil, which has been a real evil."

Enthusiastic co-operation is promised by the retailers who are awaiting their white coal cards from the hands of the printer by Saturday.

The red cards will be given out from the office of a fuel committee, on request accompanied by a doctor's certificate, and will indicate that there is actual sickness in the home, creating an urgent need of coal. To get coal on a red card, however, it will be required that the purchaser pay in advance.

Several expert accountants are today examining the books of fifteen Philadelphia coal dealers, investigating September and October costs. The results obtained, Chairman Lewis said, will put the local committee in a position to recommend to Washington the proper margin for the retail trade. Several leading Philadelphia dealers and William Potter, State fuel administrator, are in Washington today, where they will confer with Coal Administrator Garfield. It is expected that the Government will arrive at its decision in regard to the price of coal late today.

That the scarcity of coal continues acute in Philadelphia is revealed unmistakably today by inquiry among the dealers. "Over-sold already on the coal we got in yesterday," was reported at the Atlantic Fuel Company, Fifty-second and Walnutfield streets. "And the prospects are not very good for more. I guess the trouble is with the railroad," volunteered the operator for this company, which ships over the Pennsylvania.

"Oh, no, we've no coal for delivery. The best we can do is to take your address. We did get six cars yesterday, and we're trying to catch up now with our oldest orders," was the report at the American Ice and Coal Company, from its Sixth and Arch streets office. The same conditions hold true for all its branches, was added.

2 HELD AFTER GAMBLING FRAUD

Victim Charges Alleged Proprietor Threatened to Shoot Him

"Reddy Jake" Melnikoff and George Allen, both of 340 North Eighth street, were today held in \$600 bail each for court by Magistrate Penneck in the Central Police station, accused of keeping a gambling house.

According to Arthur Berg, of Utica, N. Y., he went to the Eighth street address about three weeks ago and lost \$100 playing "stucco." Last night, he told the police, he returned again and lost \$300. When he left the place he was told that the game was crooked and he went to Melnikoff and demanded his money back. Melnikoff, he said, took him to the second floor and threatened to shoot his head off unless he left the city. Berg swore out a warrant and the men were arrested by Detectives Walsh, Whitworth and Burgess, of Captain Souder's staff.

RUNS AWAY TO ENLIST

15-Year-Old Boy Determined to "Go Over Top" in American Drive

Fifteen-year-old Francis Mulhern, determined to "go over the top" when the big American drive against the German lines begins, is being sought today by the police, following an appeal by his mother, Mrs. Annie Mulhern, 2200 West Norris street.

Young Mulhern, who was rejected by the United States recruiting station here on account of his youth, went to New York last week with \$45. He wrote his mother that he was determined to enlist. He is large for his age, being 5 feet 11 inches tall and weighing 150 pounds. He wore a mixed brown suit, cap and overcoat.

SEEKS NAME FOR BABY

But Sergeant Spicer Wants Only a Good Republican, and

Being patriotic presents numerous difficulties to Acting House Sergeant Clark (Garfield) Spicer, of the Sixty-fifth street and Woodland avenue police station. It is his desire to name a new boy that came to his home, 2133 South Sixty-fourth street, two days ago after a prominent American. But there are so many men of deeds in the country at the present time that he has been forced to ask friends and associates in the police station to help him out.

The news has become noised about the neighborhood, and today as he took his desk a large pile of letters containing all manner of names for his new-born greeted him. He hopes to be able to name the child after a prominent Republican, as two other children, twins, nine years old, are called Edwin Stuart Spicer and Theodore Roosevelt Spicer. "I can't have the family split politically," he sighed. "Oh, if President Wilson was only a Republican."

**EL PRODUCTO**

Settle Down to a Really Enjoyable Smoke

PUT on your comfortable smoking jacket, get into your favorite easy chair, light-up an El Producto and experience real enjoyment.

El Producto in either the two for a quarter sizes or ten cent straight sizes, returns in real enjoyment every penny it costs. It satisfies your longing for good tobacco—and demonstrates the value of its careful workmanship. Made from the finest Havana, with carefully selected shade-grown wrapper, El Producto makes you enjoy good cigars more than ever.

Your dealer will be pleased to sell you any quantity, whether a single El Producto to try, or a box for repeated enjoyment.

Let him show you El Producto in the 10c straight shapes. They're a good introduction to their larger name-sakes.

The G.H.P. Cigar Co. Philadelphia

In Ledger Central window this week an expert cigarmaker is showing how El Producto is made.

NIXON THEATRE OBSERVES SEVENTH ANNIVERSARY

Addresses Made at Last Night's Performance by Founder and General Manager

23 POLICEMEN CHARGED WITH VARIOUS OFFENSES

Twenty-three policemen appeared before the police board today on charges which ranged from intoxication to "jogging."

Policemen Robert Ramsey, Albert A. Beach, and William J. Volmer, all of the Twenty-eighth and Ritten streets station, were charged with "jogging" in Fairmount in the automobile of Dr. H. H. Freund, 1412 South Broad street, who is the chief surgeon of the Department of Public Safety. Their cases were also referred to Director Wilson.
