Gunning Notes

State Game Prejector N. M. Wood, of conteaville, did not get his usual our of he deer country this season, as he is eling kept at his home to look after the unting affairs in Chester, Delaware and Philadelphia Counties.

William Kirshner, of this city, and John Rebrig, of Port Carlson, have been matched for a special shoot at the Eagle traps this Saturday.

Harry Sloan, shooting for the Peninsel vania Railroad team, sewerd forth seven breaks of a mossible fifty in a Transhaboters' League match recently. Man Dowell, also of the same club, handed in a card of forty-six.

Several big matches are being held in the realms of white flyer sport this season. Harry Merrison of New Jersey, seems to be one of the principals in many of the events.

For the first time in many moons Charles II. Newcomb, of the S. S. White gunning organization, of this city, failed to "make" his feam in competition with the Camdon Subottine Assessation in their Newcomb broke forty of his fitty blirds, but this score was not chalble for his team. Strong winds, which played prantic with the clay targets, were partly responsible for Newcomb's low taily.

THE strength of the Pullman L Car represents one of the best forms of insurance the traveler can buy.

For seven years every car built by the Pullman Company for its service has been of steel.

During this period a large proportion of the older, but still modern cars, have also been rebuilt to almost equal strength.

This has been accomplished by rebuilding with steel under frames, steel vestibules and steel sheathing on the sides.

In addition to the factor of safety, fifty years of experience in designing and building cars has brought about an almost unheard of development in travel convenience and luxury.

The modern Pullman is fully equipped with the most up-todate steam heating, electric lighting and plumbing.

It offers a degree of safety. innumerable luxuries and a personal service that have established a world-wide reputation.
