THE Charlotte Cushman Club is going to give another delightful tea this week.

The guest of honor this time will be Miss Constance Collier, who is nov playing in "Peter Ibbetson." The tea will be held from 4 until 5:30 o'clock on Friday afternoon. Won't it be interesting to meet her?

DID you happen to be lunching at the Green Dragon Tea Room on Saturday between the hours of one and three? If so, you must have been aware of the fact that the girls of Camp Iroquois, under the chaperonage of Dr. Ann Tomkins Gibson, director of the camp, and three of last year's counselors were there, having a reunion. Not that they were noisy at all, for has not Camp Iroquois gained the reputation of being an unusually well-mannered camp? But then, of course, this is only natural, comprising as it does, a most attractive lot of girls, ranging from eight to eighteen years, from all along the Main Line, Germantown and Chestnut Hill. And this doesn't mean, either, that they are made to sit up like perfect little ladies all he time, with knitting-cuite the opposite The entire aim of the camp is to give the girls a healthy, happy summer, by encouraging all kinds of 'athletics, particularly walking, and the success of their efforts was certainly proved by the way in which the older girls climbed to the top of Mount Washington last year. Right here I might add, for the benefit of those whose memories concerning certain geographical details may be somewhat rusty-that the height of said mountain is 6500 feet. Besides this they were taught swimming, paddling and all water sports under the instruction of Betty Dallas (head counselor) and Isabel Gittings, while Mary Tyler had charge of the basketball, tennis, archery and baseball. The last week they were there they gave a play and operetta, under the supervision of Betty Drllas, stage manager, and Dorothy Dinsmore, musical ounselor, and their attempts, both vocally and histrionically, were most successful. For the reunion they engaged a private room upstairs in the tea room, and possibly you heard fragments of camp songs that may have floated to the main dining room downstairs. After luncheon they saw a movie. A few of the girls who couldn't get there on account of the weather, or previous en ragements, were so disa; pointed that mother reunion was planned for next February, and later on toward spring a large affair will be given to which not only the old aris but the new ones who ure coming to camp next year, as well, will be invited and initiated into the joys of a Camp Iroquois life on Lake Winnepesaukee.

## COLLECT MAGAZINES FOR SOLDIERS

Junior Members of Wyncote Women's Club Formed Committee to Secure Reading Matter for Cantonments-Jenkintown Choral Concert

I of Wyncote have formed a committee, of which Miss Mary Viele is chairman, to collect books, records and magazines for the cantonments. At the last meeting of the club Doctor Robinson, of Swarthmore College, gave a very instructive and interesting talk on food conservation. He spoke of the food situation as brought about by the submarine warfare; the shortage of sugar, both cane and beet, which had formerly been raised in Germany, Austria, Rufsia and Italy and is confined now to the West Indies and the United States, and wheat, which is raised in Canada, Rumania. Russia and the British Indies, the Argentine

and Australia; and meat from the United States, Argentina and Australia; and the good butter which we have got from Denmark and Germany. And he explained what has puzzled some of us-why we are sending our wheat abroad and not corn, because of the people of Europe the Italians are the only ones who eat it, because it is only good when eaten hot, and prinicipally because it

does not keep in going through warm countries as wheat flour will. And he mentioned the fact that we are not asked to live more cheaply, but more carefully; that we should try to make a shift in our diet in order that we may give to our allies the things that are least perishable; in short, to put it inclegantiy, "Do not stuff your husband, but hus band your stuff !" Miss Mallaby, of the faculty of Beechwood School, also gave two
