CONSERVATION OF TIME

Promoters of Union Project Will Discuss Advantages of United Effort

Just as a number of business interest are combined, reducing executive ex-pense to a minimum, so can the various war fund campaigns be merged with equal success.

This is the opinion of many of the prominent men who are giving their time and money to the various causes. With the object of bringing such a

unification about, eight of the city's leading business men will meet at the Bellevue-Stratford this afternoon at 4 o'clock and discuss plans for a perma-nent organization which will take over all the organizations at present engaged in obtaining funds for activities directly connected with the war.

Those who will attend the conference are: Samuel T. Bodine. Cyrus H. K. Curtis, Thomas DeWitt Cuyler, James A Flaherty, Rabid Joseph Krauskopf, Alba A. Johnson, George H. McFadden, E. T. Stotesbury and John Wanamaker. They have issued an appeal to prominent Philadelphians to meet them at this time, and discuss the plans which they have in mind for the formation of a permanent organization to take charge of all such work, not only the Red Cross and the Young Men's Christian Association campaigns, but for all other organizations engaged in raising funds for war purposes.

John H. Mason, president of the Commercial Trust Company, will handle the publicity for this new plan. He thinks that the organization will be copied after the Caveland Federation of Charities, which handles all local camoney given him by his father during his etime will not exceed \$7000; Agnes , was born August \$, 1900, seventeen , was born August \$, 1900, seventeen exceptionally successful. As a result of this centralized plan, Cieveland stands years of sige, property will not exceed \$7000; James P., Jr., was born June 17, first of all American cities in per capita

An Appeal to the Travelling Public

Under the general authority granted by the Secretary of War, 15,000 soldiers from the National Army encampments will travel to and from their homes, for the Holidays, over the Pennsylvania Railroad.

Transportation for these men must be provided chiefly on lines which are already most severely taxed in the effort to move promptly the greatly increased traffic-both passenger and freight -due to the war.

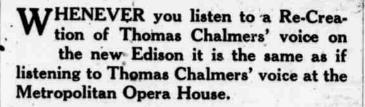

In addition to handling the soldiers who are granted Holiday leaves of absence, other troop movements must be simultaneously carried out.

Meantime, the transportation of industrial workers engaged in factories executing Government orders must not be impeded, even temporarily. Thousands of such workers are carried daily by the Pennsylvania Railroad, and no traffic is of more vital importance to the Country.

To meet this situation successfully, the Management of the Pennsylvania Railroad therefore earnestly requests that, as an act of patriotism, pleasure travel during the Holiday period be suspended, and that railroad travel be voluntarily restricted to necessary trips on the affairs of business.

This will give the soldiers, who assuredly have the first claim to consideration, a better opportunity to visit their homes in comfort, and will also minimize interference with the conduct of the war industries. 2022 6

THE PENNSYLVANIA RAILROAD COMPANY

We know of no stronger way to express the fact that the interpretation by the living artist and the interpretation by the instrument are absolutely indistinguishable. The voice of Thomas Chalmers in the flesh and the voice of Thomas Chalmers in the instrument are one and the same.

Our famous tone tests have settled that question once and for all. They have convinced more than two million listeners that Thomas A. Edison achieved the impossible in

The artist sings. Suddenly he stops and the instrument takes up the song alone. And in not one instance, when the lights were lowered to conceal the singer's lips, has a listener been able to say when the living voice left off and the instrument began.
