WARNING TO GAS CONSUMERS Gas consumers are warned that we may be unable, temporarily, fully to meet the great increase in the demand for gas, due to cold weather and the shortage of the domestic coal supply. There is danger of some burners going out when the gas demand is heaviest, and gas coming on again later. Be sure that all burners not in use ARE SHUT OFF. Do not go to sleep with any gas burning. If any burner will not light, be sure to close the gas cock before you leave it. Do not keep a burner lighted unless some one is in the room. If you smell gas, examine and shut off all burner cocks. Do not under any circumstances search for a gas leak with a candle or match. THE UNITED GAS IMPROVEMENT COMPANY

TOONVILLE IN SHAKE-UP Nicholson and Rail Routes Agree on Improvements MEN SHIFTED Lie-Peddlers Tell Story of Soldiers Pressing to Death

By a Staff Correspondent BRADDE, Admiral, Md., Jan. 2. This much was assured today General Nicholson sent for J. J. general manager of the Washington and Annapolis Electric to discuss a plan for improved service. General Nicholson made it the newspaper men that better was assured.

Overcrowding of cars, failure to maintain a definite running schedule and the selfishness of motormen in stopping cars in the tracks of the Pennsylvania Railroad, 25 per cent of the cars, and other persons connected with the camp are forced to patronize the electric line which operates between Annapolis and Washington.

There was a reminder of the embalmed beef scandal of Spanish War days at the United States Ambulance Camp, on the Allentown Fair Grounds, last night, when hundreds of the men became violently ill from eating canned turkey for supper. Many of the men were suspicious of the supposed delicacy and did not touch it. A majority ate it with a hearty appetite.

The first complaints were heard about midnight, and soon there was a hurry call for doctors. Hundreds of the men suffered for hours with ptomaine poisoning, but eventually all were relieved.
