Health and Beau

when Private Frederick Rubenstine, of that outfit, developed meningitis. Throat cultures of the men will be taken.

Meastes appeared in the ammunition train, the Maryland artiflery and the base hospital enlisted detachment in the last few days. There is a case of meningitis in Rattery E, where Private Philip T Martin is affected, and one in the Supply Company, where Private Francis Delucia is ill. All the patients were quickly isolated.

These three cases are the only meningitis in camp. The number of measte cases in the hospital detachment, the artiflery and train is small and the measure is precautionary. There is no cause for alarm, medical authorities feel.

Minor shortages of breeders and to be adequate at all camps.

To meet the overcant shortage at Camp leavergard. Secretary Baker said 22,300 and also of recent shipment of 500 overcants to Camp Custer, 10,000 bloused to Camp Puneton, 2000 bloused to Camp Puneton, 2000 bloused to Camp Funeton, 20

Speaker at Mother's Congress Asserts Morals of Our Soldiers Rank High

Danger to young girls in the lure of

Danger to young girls in the lure of the uniform was the theme of an address by Lady Aberdeen, head of the International Council of Women, at the first day's session of the National Congress of Mothers and Parent-Teachers' Associations, which was held at the home of E. T. Stotesbury. The concluding session of the congress will be held today at the Bellevue-Stratford.

Steps to safeguard morals of both young men and young women from perils that arise out of the excitement of war were discussed by members of the congress. Mrs. Kate Waller Barrett, of Alexandria, Va., national chairman of the camps' activities committee of the National Congress of Mothers, paid high praise to the morality of the American soldier and stated that visits to all of the cantonments east of the Missiasippi had convinced her that stories reflecting on moral conditions in the cantonments were part of the German propaganda.

WARNING TO GAS CONSUMERS

Gas consumers are warned that we may be unable, temporarily, fully to meet the great increase in the demand for gas, due to cold weather and the shortage of the domestic coal supply.

There is danger of some burners going out when the gas demand heaviest, and gas coming on again later.

Be sure that all burners not in use ARE SHUT OFF.

Do not go to sleep with any gas burning.

If any burner will not light, be sure to close the gas cock before you leave it.

Do not keep a burner lighted unless some one is in the room.

If you smell gas, examine and shut off all burner cocks. Do not under any circumstances search for a gas leak with a candle or match.

THE UNITED GAS IMPROVEMENT COMPANY
