Plays and Players Send Out Circulars Regarding Prize Competion Plays-Isaac Marcosson Speaks at Independence Square Red Cross

THE Plays and Players have issued the | annual circular anent the Prize Play Competition for the season of 1917-1918. many rules and regulations. Every year, you know, various members of the ociation submit one-act plays, and of these three are picked out by a committee and, a cast of members having been chosen, the plays are given on one of the club nights without the author's name. and the best one is voted for after seeing all three. A prize of \$50 is given for the frst, \$25 for the second and \$10 for the shird.

There is no doubt about it, it's a very good thing, and the idea of this competition serves as quite 'a bait to some rising young playwright! The circular tells the members that all plays must be submitted on or before March 1 and must be mailed to the secretary, Mr. Henry B. Schaffer, Jr. The greatest excitement about the whole thing is that no one but the authors themselves and the five on the committee knows who wrote the plays; even the actors de not know who is the author of the play they are producing. The judges do not know nor the audience. And the rehearsals are held in secret.

The prize competition committee this year includes Mrs. Miriam Lee Early Lippincott, chairman; Mr. J. Howard Reber. Mr. John Luther Long, Mrs. Edward H. Coates and Mr. A. Howard Ritter.

MR. WILLIAM T. ELLIS, who has just lately returned from Russia, is going to speak at the Independence Square Red Cross Auxiliary headquarters next Monday afternoon, and today Isaac Marcospon. who has been "over there" recently, gave a talk to the workers. Mr. Marcrosson is considered one of the best and highest priced speakers of the present day, and in spite of the weather there were many here this afternoon, when he has donated his services to the cause.

Have you been into the Independence Square workrooms lately? If you haven't you ought to. They have opened them through, so that the whole first floor is to be utilized now, and they have built the cutest little committee room in one corner and put up cupboards and have had everything painted white, till it's a joy to the eye of the beholder.

As for this treat every week, that of hearing these instructive talks from men and women who know conditions, it's simply splendid; one gets so much information in this way. And it certainly is an inducement to work harder than ever making dressings, cutting, folding and preparing work for others

Mrs. George Horace Lorimer, who is chairman of this Red Cross auxiliary, is certainly a wonderful executive, for she does everything to facilitate the work and plans these talks for the workers She has a very efficient committee, too, so it's no wonder that they exceeded their quota of dressings for December 20 by several thousand.

Previous to the meeting this afternoon the executive committee, which includes Mrs. Frederick English, Mrs. Robert Emott Hare, Mrs. E. Burd Grubb and Mrs. George Fales Baker besides Mrs. Lorimer, will be entertained at luncheon by Mrs. George Fritz Chandler at her home, 1728 Rittenhouse street.

DID you know that Elsie Stuart was married very quietly on Thursday at her parents' home on Clinton street? She is going to live in California, and I, for one, am sorry that she will not be with us any more. It was a pleasure just to look at Elsie; she was so stunning looking and always so beautifully gowned. I don't know many women who have such good taste in the matter of clothes and who combined the very best advantage, never exaggerated, could be. She was interested in many of the good works and did a lot for the Red Cross here. Mr. Jewett, the lucky man, has certainly won'a prize. Dr. Alexander MacColl, of the Presbyterian Church, performed the ceremony and only the immediate families were present. Mr. Arden Robbins, of New York, attended Mr. Jewett as best man. Elsie is a sister of George and Ted Stuart. She and her husband have sone West and will live in Pasadena. THESE days when you walk on your heel and suddenly fly off to the edge of the pavement, just saving yourself from falling by grabbing the dear old lamp-post. don't you JUST LOVE to meet the people who NEVER slip on the ice and who find it easier to walk on snow than on plain straight pavements? Don't you? Well, it's great sometimes; but you know that old saying about pride. I was walking along with a certain woman recently and I remarked, "Doesn't this pavement scare you, for fear you'll fall?" She fixed her eyes coldly upon me and said: "One should treat all such things from a scientific standpoint. In science there is nothing disagreeable so we who believe in science do not slip." 'Oh, girls, just wait; It was too lovely ! For as she said it and fixed me with an icy stare her foot slipped and she sat RIGHT STRAIGHT DOWN on the pavement before my very eyes-and 1 did not say, "I told you so." I just laughed until I nearly choked and she pic ed herself up and walked away without so much as a backward glance.
