Guard Against Infection

The natural inclination of most people is to belittle the dangers lurking in minor flesh-exposing injuries. Neglect to take pre-

cautionary measures against infection of wounds is most often due to the absence of reliable antiseptics. Always have ready for every emergency a bottle of

A powerful, non-poisonous antiseptic, which thoroughly cleanses the parts affected. It destroys the harmful germs and prevents complications. The removal of poisonous ingredients through a special process or preparation gives Glyco-Iodine a deeper penetrative power and prolonged . antiseptic action.

Glyco-Iodine is especially pleasing because it is quickly absorbed, never stains nor injures linens.

A bottle from your druggist today is the advance-guard against s results from your next accident.

Two sizes: 4 oz. \$1.00; 2 oz. 60 cents. Each bottle hermetically sealed suring full strength, full quantity
