## PENNSYLVANIAN HITS AT THE HOUSTON CLUB

Students' Newspaper Attacks Management as Autocratic and Discourteous

The Pennsylvanian, the daily newspaper of the University of Pennsylvania students, in an editorial makes vigorous complaint and objection to the methods being used in the management of the Houston Club. Every student is com-pelled to become a member of the club and must pay semiannual dues when he and must pay seminated the when he matriculates in order to be admitted to classes. The club management has been termed autocratic, and it is said that "employes of the club have shown themselves to be overbearing, sarcastic and

If a class or any organization wishes to give a luncheon or smoker in the club it must give the contract for catering to some one suggested by the hired manager of the club or else pay \$5 or \$10 for having tables and chairs moved and for cleaning up, according to an editorial in the Pennsylvanian. Further, the editorial states "no consideration is given the fact that the under employes are paid to be there and sheld do such work without making money out of students and organizations at every opportunity."

The students demand, according to the communication of a Wharton School sephomore, two courtesles of the Houston Assistatement of receipts and expenditures, such as is given a member of any social organization where dues are charged, and, second, an outline of the policies of the club and its management.

> The success of this great country depends right now as never before upon the closeness with which the border states of the West are connected with the border states of the East. These states are the country's right and left arms and depend upon the circulatory system (the transcontinental railroads) to supply the necessary nourishment for the bone and sinew that will win this great world war.

Therefore are we assured that there is no idea of interference with the prosperity of the western coast by unwise. unnecessary transcontinental curtailment.
