Officials of the American International Shipbuilding Corporation and the city bureau of surveys are awaiting the ar-rival this afternoon of J. lingers Flanrival this atternoon of J. Rogers Fran-berr, of the Emergency Floet Corpora-tion, in order that preliminary steps inay be taken toward the erection in the Fortieth Ward, of 7500 brick buildings for the housing of an army of workmen amployed in the Hog Island yards. Immediately upon the arrival of Mr. Flannery, all officials of the city, the

International Shipbuilding Corporation, and the Emergency Fleet Corporation will join in a conference, at which time the first definite outline will be presented an to the location of the proposed "in-dustrial village" in the Forticth Ward. Jaland road and tilmwood avenue. Only about half of this tract will be needed for the first 2000 houses to be built, and it will be decided at the conference today just what part of the land will be used for that purpose. The houses are to be two-story brick structures, designed for permanent use, with plumbing and all modern conveniences, and each house will have, in all probability, six rooms. The houses will be of varying design.

A big task lies ahead of the city in the extending of water mains so as to supply the new community and in look-ing after the sever system for the building, A pipe more than a mile long will be laid from the nearest connection with the city mains, Grading, filling in of low lands and providing protection against mosquitoes are among the other big tasks that city officials must meet, but it is said that all these plans have been worked out in advance by the en-
