Our Labor Problem

America's labor problem is an insoluble one. It is the result of the war. Before the war we had not found any thing approximating a remedy or solution, and naturally we cannot expect to find the remedy now.

BAR SILVER

Oil for Fuel!

The resources of the Mexican oil fields could heat and light the United States for many years.

The United States Naval Consulting Board has reported: "The Mexican Oil Fields are probably the most extensive deposits of oil in the Western Hemisphere, if not in the world."

C. W. Barron says in his book, THE MEXICAN PROBLEM

"It is figured that more than three-fourths of the oil values in this Mexican field are under the Mexican Petroleum Company's 62,000 acres, and that they represent a potentiality of at least five billion barrels in production, a sum ten times the world's annual consumption."

"The great pioneer work of acquisition, production, construction, finance and organization has been accomplished in seventeen years, and the patient owner should reap handsome rewards in the next seventeen years."

When erecting a new building the above firm choose the Aberthaw Organization on account of its reputation for high-grade work.
