delphia in 1916.

"That is fine. There is no doubt that we need all the shipping facilities that we can possibly get. The more pier fa-clifties and harber facilities that we have in the United States the states it will be to get the shipments abroad. We need all that we can get. I am that to hear that Philadelphia has this increy available. "The question of these priority cortif

cates has not yet been brought officially before me. Director Webster took the matter up with Edward F. Carry, direcfor of operations for the Shipping Board. If it does not interfere with any opera-tions of the United States Government, I cannot see why these priority certifi-eates should not be assued to Philadelphia to go on with the good work of adding to the shipping facilities of the country in the time when the war calls for all we can get "

Director Webster said today that the McKean street pler is more than two-thirds completed. When priority certificates are issued for the material the remainder will be rushed. Other docks for which certificates are desired are planned for Porter, Wolf, Cherry and enilworth streets. Other plens are anned at Altegheny avenue and Colum-Kenilworth streets. The plans for all these plers are rendy

for operations in the Department of Wharves, Docks and Ferries, Opening of river in the spring will leave the free to go ahead with its work, city free provided priority certificates for ma terials are granted by that time.

Prominent speakers at the dinner of the Business Science Club, at the Belle-vue-Stratford last night, strongly urged the establishment of a free zone at this order that Philadelphia may port in order that Furthermony of five take advantage of the creation of five nillion gross tonnage of American ship ping and the coming transfer of the money market to this country. Other advantages of the free port
