"It will be long after your bedtime."

Bedtime boing the one rule which was never under any circumstances broken, he did not persist. To have insisted might have massift five off in Miss Braithwaite's Book, and his record was very good that week. Together the clderly Englishwoman and the boy went back to the schoolroom.

The Counters Lossial was and found for waiting there alone, rather desperately caim now, and with a tinge of excited color in her cheeks. Because he cared a great deal, and because, as kings go, he was neither hopelessly had nor bard, his first words were kind and genuine, and almost brought her to tears, "Poor little girl" he said.

He had dropped the curtain behind him and they stood alone. "Don't," said Hedwig: "I want to be very eatin, and I am sorry for myself already."

"Then you think it is all very terrible?"

"Why not?

IMPORTANT SONATA BY PHILADELPHIAN

Piano by Gregory Kannerstein Has Unusual Merit

A piano-violin sonata of unuqual merit

Mr. Kannerstein, as was stated in

these columns some weeks ago, is an exception planist and musician who is altogether too little known. His attain-

ments are of the highest, and in him Philadelphia has a valuable acquisition. His some's, delightful at the first hearing, should improve upon closer ac-

quaintance. It deserves a regular place among chamber-music compositions that are regularly performed.

Miss Braithwaite, who had begun recently to think a palace the dreardest place in the world and the most commonplace, found the preparations rather exciting. Being British, she dearly loved the aristocracy and shrugged her shoulders at any family which took up less than a page in the pergang. Inortage means PYRENE WILL NOT FREEZE AT 50 DE. **GREES BELOW ZERO** ZERO-TO OPERATE TURN HANDLE TO LEFT WORK LIKE A PUMP

If you wish to stay in business we advise you to read the following: The existing coal shortage in mid-winter puts all manufacturers face to face with the most serious fire problem in the history of business.

Hundreds of plants are employing dangerous secondary means of heating. Is yours?

Hundreds are depending on frozen fire equipment or on sprinkler systems drained to prevent freezing. How about yours?

Do you realize that frozen equipment is worse than no equipment? - that gasoline torches used for thawing frozen pipes are causing innumerable fires? Do you realize that city fire departments are seriously handicapped by cold?

And by snow? And do you know that insurance officials and fire chiefs consider the situa-

tion alarming?

The only thing that can make a plant safe today is Pyrene. For Pyrene extinguishers do not freeze even at 50 below zero.

Light and quick and deadly to incipient fires. Especially adapted to killing incendiary or other quick starting dangerous blazes. Have you plenty of Pyrenes in your plant? Order at once if you haven't. Remember your motor trucks, too!

Watch out for incendiaries. They are loose everywhere. If they haven't reached you as yet, they may pay their respects any day.

Call the police instantly if you see suspicious persons near your plant. Every factory or motor truck burned helps the Kaiser.
