SENDS SOFT COAL DIRECT TO USER State Administration 'Experts De-

Dealer'Is Eliminated in New Order of Fuel Administration

Rules for Anthracite Are Made by Potter-No New Retailers Permitted Here

COAL DEALER ELIMINATED soft coal consigned direct to con-umer through State fuel adminis-

Dealer is thus eliminated to a certain extent. Will result in about seventy-five earloads per day being sent from mines to industries through consumers.

Soft coal consigned through the office of William Potter, Federal fuel administrator for Pennsylvania, will go direct to the consumer, it was announced today in a decision that eliminates the tealer to a certain extent.

This step, taken to indicate the first movement in the program to eliminate middlemen, will result in about seventyfive carloads a day being sent from the ows closely upon the fuel administration's decision to grant permits to no new dealers.

HARD COAL STANDARD FIXED The standard for hard coal was an-nounced today by Mr. Potter in his nove for clean fuel. The grades, dopted as follows, were those used by R. Soule and y the Suzquehanna Coal Company: Nut coal not to exceed 3 per cent No. 1

unkwheat to be free from dirt 1-16-inch mesh. ler sizes to be considered dirt in four sizes if exceeding the limits

nd, moral as well as the legal re-naibility to handle clean coal will insisted upon by this office," said Potter. He announced that the be insisted upon a non-order that the Union Ice and Coal Company had been ordered to rescreen a carload of chest nut coal because it contained 21 per cent of impurities, including buckwheat, ent of impurities, including backwheat, pea and dirt. The company expressed itself as willing to comply with the order. NO PERMITS FOR NEW DEALERS The 230 coal dealers now doing busi-ness in Philadelphia are sufficient to pess in Philadelphia are summer to supply this city, Francis A. Lewis, chair-man of the Philadelphia coal committee, has decided. He has refused a permit

The fuel administration is understood to be working out a plan to divide the city into zones, the dealers to be restricted to the consumers in their immediate hborhoods. Addition il dealers start ing in business at this time, it was said, sould complicate these plans and necessitate changes.
