There isn't any quick way; you must persevere. Use tincture of green soap, which you can buy at the drug store. If the blackheads and pimples do not come from some internal cause, the only way lo get rid of them is to work very hard to keep your face scrupulously, clean. In place of using a wash cloth, use a scubbing brush as stiff as you can stand it. Be faithful about this and never miss a night. Once a week stand it by holding your head over a bowl of very hot water. Then press out those blackheads that are not irritated. After you finish bathing the face at with the allite sine oldiment on.

A complete showing of new pattern designs, charming band-colored sketches of every design, the favored materials for Spring are now on exhibition at the Vogue Pattern Room.

Many of these new designs are cut to save wool—as the Government arges patriotic women to do—thus attaining an added distinction. The new slim-silhouetted suit, the two-material frock in its 1918 modishness, the silk suit, the smart silk-gingham dress—Vogue has cut, and shows wool-saving patterns for them all.

Vogue patterns are easy to follow. Every diffi-culty of cutting, fitting, and combining is fore-stalled. Every piece is marked in plain English with full directions. Every seam is indicated with a perforafed line. Lining, goods, and trum-ming are cut in paper of three different colors. There is no endless changing and trying on and refitting. Just follow directions and the result is a merces.

Thousands of women bridge the gap between a limited and an unlimited allowance by the uso of Vogue Patterns. By using Vogue Patterns you halve your dress expense and double your dress distinction.
