

PASTOR FOR WAR WORK ON SUNDAY

Minister Urges Munition Plants Run Full Blast on Sabbath

ONLY WAY TO WIN WAR

Dr. Watchorn Flays Man Who Idles During Week to Boost Pay Envelope

Work on shells and munitions to obliterate Kaiserism is far better than prayer, even though it must be done on the Lord's Day...

The declaration made today by the Rev. Dr. John Watchorn, corresponding secretary of the Philadelphia Conference City Missionary and Church Extension Society...

Dr. Watchorn minimized the action on the part of some of the conference members in asking for a decisive stand on the subject...

"The movement," said Doctor Watchorn, "was entirely out of time with the spirit of the splendid patriotic address of Bishop Henderson of Detroit..."

"It would be unreasonable for any clergyman to stand in his pulpit and urge the workers of his congregation to stay away from Government work on Sunday..."

"The Master himself told us that work on the day may be just as necessary as work on the Sabbath day..."

"But the Allies are now in the pit of hell. It is now up to us to heed the Master's voice and draw them out of that pit..."

"Some of the members became confused with the position taken by Lloyd George and others in England..."

"But the Allies have now been in the war for more than three years. During the first years they found themselves unprepared for the unexpected onslaught of an enemy without honor..."

"The United States is now in the position that the Allies were in those first days of the war. We are in the early rush. We must hide our true strength until we are past that period..."

"In fact, it was the spirit of the conference that if Sunday work is necessary for the successful prosecution of the war, which means the welfare of the nation, it should go ahead..."

"There is a man among us, however, who is almost as detestable as the German spy. He might almost be classed with the traitors..."

"He is the man who will lay off on a week day in order to work on Sunday so that he might get double pay. He thus gets seven days' pay for six days' work..."

"That man is neither patriotic nor Christian. He is not right with God nor his country. He is robbing both his God and his country..."

"I have been told by both ministers and laymen that such things are being practiced. This is to be denounced most roundly. I will join in any movement that can eradicate it from the country..."

"Such a man is really robbing his nation of one day's pay a week. He is making personal gain for himself regardless of the effect upon his country..."

"If the Government allows such things to go on there are some officials who must be asleep. They should be awakened at once. If they are winking at such work they are just as guilty as the men and should be dealt with accordingly..."

The Yellow Dove A Romance of the Secret Service BY GEORGE GIBBS

The story thus far. All England is notified by the Yellow Dove, a mysterious airplane that makes periodic trips to England...

STRAWBRIDGE & CLOTHIER

Thursday and Friday CLOVER DAYS

Twelve years since our first Clover Day! Since the tenth March Clover Day we have been celebrating the anniversary of this famous event by making extensive preparation for TWO DAYS—not only gathering much larger quantities, but more different lots than for other Clover Days.

More Than a Thousand Different Lots of Reliable, Desirable Merchandise Unusual Values in All Departments

Most of the Clover Day Specials are in quantities sufficient for both days. Many will, however, be closed out the first day, but several hundred new lots will be held for the second day.

Lines that rivet the eye. Colorings that refresh the finer senses. Appointments that satisfy the most exacting. For the Standard Eight has beauty. An engine that whirls blithely over levels—and irresistibly over heights. For the Standard Eight has stamina and control.
