THE CENTER OF MILITARIST POWER

### CANALS PROVIDED IN RAILROAD BILL

Improved Inland Waterway Transportation Contemplated in Measure

THIS PORT INTERESTED

Necessities of Business Make Value

strable, shall expend such proportion to the revolving fund resulting from the Reichstag building. In the first months of the war, the

operation of the railroads "for the utilization and operation of canals, or for the purchase, construction or utilization and operation of boats, barges, tugs and other transportation facilities on the inland, canal and coastwise waterways. And the President is further authorized in this connection to operate and use such facilities and other into such agencies and enter into such contracts and agreements as he shall deem. acts and agreements as he shall deem

This inland-waterway provision was left in the bill by both Senate and House substantially as it was drafted by the Interstate Commerce Commis-sion at the instance of the President and liouse substantially as it was drafted by the Interstate Commerce Commission at the Instance of the President and director general of railroads. It was intended to respond to the increasing Government's foreign policy, or even speaked in conjunction with the railroads. canals in conjunction with the railroads, ed to relieve our transportation diffi-

As originally drawn the word 'canals', as not included in the bill as proper's and the censor became so strained that the purchased under the authority ernstread. This word was inserted by the interstate and Foreful Commerce Committee of the House at the request of the possiblent of the Atlantic Deeper and the president of the Atlantic Deeper and the president of the Atlantic Deeper and the committee of the president of the Atlantic Deeper and the commitment of pressure that the commitment of the commitment of

tain natural streams and artificial water.

ways.

Included among these, of course, is the Mississippi River, whose advocates have never been slow in coming forward for improvements involving Federal appropriations. There is much to be said in favor of the Mississippi and of the Mississippi and of the Mississippi and of the spend to the demands of commerce. The spend to the demands of commerce, The spend to the demands of commerce. The spend to the demands of commerce, The spend to the demands of commerce. The spend to the demands of commerce, The spend to the demands of commerce, The spend to the demands of commerce and ribbons of various orders, brint with slight variations all over the misvisuals in plain clothes, as a suite with low bows and much obsequent of the major's ball the major's ball the major's ball the major's down his words, which will appear in crosses and ribbons of various orders.

Germany by evening. If the major's ball the spond to the demands of commerce. The Southern States are naturally favorable because of their faith in southern please, and in full uniform, rings a bell to intimate the meeting has belt to intimate the apartment, carefully closing the immediate demand of the Mississippi bomers is not so much for channel depth or for tractibility of flow of water as it is for material assistance in the organization of steamboat and barge lines which might be considered.

The conference, an elderly newspaper may ask for particulars, "I have no more intormation to impart," is generally, in such cases, the gallant major's laconic reply, and the applicant for more news subsides worsted.

Campating User.

The conference, an elderly newspaper may be a conference, in the conference, an elderly newspaper may, but a reserve officer, if you impart," is generally, in such cases, the gallant major's laconic reply, and the applicant majo on the organization of steamboat and barge lines which might be operated if so subsidized. The Black Warrior River, which reaches the Alabama coal fields.

The argument is that if these rivers can be made to carry what the railroads can be made to carry what the railroads are, incapable of carrying, they will be giving distinct service to the country in the presecution of the war. The law provides not only for the utilization and operation of canals and waterways.

operate them. While it is not publicly announced, it is believed that a part of the director general's plan for the improvement of transportation by water as well as by rail will involve the advantage of water and

### Philadelphia Is Interested

No city relatively has a greater interset in this new grant of power to the administration than Philadelphia. Even in Washington it is regarded as being the foremost inland waterway city of the country. It is so advantageously situated geographically as to invite the envy of some of the western cities whose representatives do not fully appreciate the importance of the Delaware River or the military value of its national service. This was shown recently when some gentlemen from the valley of the Mississippi actually disputed the wisdom of making a \$50.000.000 approtional service. This was shown recently the Mississippi actually disputed the Wisdom of making a \$50,000,000 appropriation for housing shipyard workers near the seaboard. They thought shiphullding was too much encouraged where building was too much encouraged where the Mississippi actually disputed the Wisdom of making a \$50,000,000 appropriation for housing shipyard workers near the seaboard. They thought ship-building was too much encouraged where the industries are congested and rather intimated that some of this housing money might go eWst, even as far as the Rocky Mountains. All of which proves that education and agitation in the matter of inland waterways is not waste energy, and that Philadelphia with all its natural advantages as an inland water-ways is not waste energing a \$10,000,000 appropriate the delegate may report to his editor at the office, but which was obsensibly a concession to the newspapers retions, which was obsensibly a concession to the newspapers retions, which was obsensibly a concession to the newspapers retions, which was obsensibly a concession to the newspapers reduction and account of the Conference, which was obsensibly a concession to the newspapers reduction for still subjects of the conference, in the Reichstag. In consequence, it has succeeded in transforming the of the conference, which was obsensibly a concession to the newspapers reduction and account the first of the conference, in the Reichstag. In consequence, it has succeeded in transforming the of the conference, which was obsensibly a concession to the newspapers reduction for still subjects on the Reichstag. In consequence, it has succeeded in transforming the best of the conference, in the Reichstag. In consequence, it has succeeded in transforming the of the conference, which was obsensibly a concession to the newspapers reduction for the dictatorship of the subject. But this find the delegate may report to his subjects on the conference, in the subject of the Reitler of the Kaiser exercises over the minute of the keitler of the kaiser ex natural advantages as an inland water ways city, must continue to fight to hold that which it has and to acquire that

In the matter of canal and waterway utilization as contemplated by the new railroad law, Philadelphia needs, and so far as that is concerned, the nation also needs, two very important extensions of the Delaware River, one across the State of New Jersey from Bordentown to New York Bay, and the other south from Dilaware City across the thirteen-mile state of the through Delaware and Maryland to the Chesapeake Bay.

### New Canal a Necessity

one knows, it is antiquated and not suited to give first-class modern service. President Wilson, when Governor of New Jersey, gave his sanction to a measure providing the right of way across the State for a new canal whenever the Government should get ready lo construct one. The President, therefore, is familiar with the value of this enterprise. Surely the Delaware River, growing industrially by leaps and bounds toward the city of Trenton, is entitled to this outlet. If it had it ore from the Great Lakes would come through the New York State Barge Canal direct to the industrial establishments along the Delaware.

The Chesapeske and Delaware Canal is soins property which does appeared to the regimental and the county. The chesapeske and Delaware Canal first to the industrial establishments along the Delaware.

The Chesapeske and Delaware Canal Regiment Reserves, with the regimental regiment Reserves, with the regimental regiment Reserves.

gates read a report they have prepared for the conference. It may be about the submarine campaign, or the food

the newspapermen as they like. Not so the Foreign Office, whose titled rep-resentatives often have violent alter-cations, especially with men like the famous Count Reventlow, who represents the Agrarian Deutsche Tageszeitung at the conference, and other similarly aggressive journalists on the staff of Pan-German papers.

During the submarine controversy with America furious disputes took place between Count Wedel, who at that time was the delegate of the Foreign Office, and the advocates of ruthless submarine warfare. The Foreign Office wished the German press to refrain from attacking America and President Wilson too violently, and newspapers like the Taegliche Rund fused to obey. At one time Count Wedel declined to continue attending the conference until the correspond-ent of the Cologne paper had apol-ogized to him for his conduct, and for several weeks the Foreign Office

The German Government plays upon these differences and rivalries among newspapers and Turkish journalists, who had exactly the same way it does on the hostility among the various parties in the Reichstag. In consequence, it has succeeded in transforming the

ristocratic colleagues, many of whom lonestly doubt his sanity.

Bernhard Great Debater

The great debater of the conference the Count, in his deceptively bluff and Nevertheless. Excellenz von Mumm was wrong; the press conference is an exact replica of the Reichstag. The press representatives are just as power eriess as the representatives of the German people in the Imperial Parlia ment, and the Government bamboogles and despices them quite as much. While the journalists attack the Foreign Office frequently at the conference, it must not be supposed that they are ever victorious in these tus sles; in the end they are invariably make amends, without ever getting the information they wanted.

Once in a while, to keep up appearances, the Foreign Office doles out some trifling diplomatic information, impressing the newspapermen by first pledging them to absolute secrecy, always placing his argumentations the appearances. The Foreign Office is as secretive as the despised journalists. But, as a rule, the Foreign Office is as secretive as the despised journalists in the dark about all really vital maters.
