#### 26TH DAY OF BATTLE

Today's report from Marshal Haig may be regarded as the most optimistic in several days. Capture of Neuve-Eglise is of minor importance, as the city has been fought over and has changed hands so many times its defensive value

The fact the Germans have been held on all other parts of the Flanders front and the British have been able to improve their positions by counter-attacks indicates dwindling in the force of enemy assaults.

Hindenburg has failed to attain his ambitious strategic geographical objectives. He has been unable to split Haig's armies and has captured none of the important cities for which he was driving - Hazebrouck, Bailleul, Aire, Lillers and Bethune.
