SHORE HOTELMEN **ELIMINATE WHEAT**

Chefs in Atlantic City Inns Develop New War Bread

MEET COST INCREASE

Eggs Are Used as Binder to Hold Substitute Material Together

Atlantic City, April 15. Patriotic saore benifaces went over he top 100 per cent strong when Her-Hoover's propaganda for the entire nation of wheat from American neuus until the new crop or that of life comes into the market next mber became effective throughout

As a result shore butel patrons are he tables of the big and little caravar-arise here. Proceeding upon the theory of Mr. Hoover that wheat is a luxury for the well-to-do and a necessity for those who labor for a living, hotel bakerarier, tye, bran and rice flour are to into the new war bread for those never kick about tariffs in acarbon selving the sould tariffs in secondary stelving. The result is an exceedingly latable sort of nurific production that its well and meets every required. The fact that it is too per cent. Let it is not the least of its commodable qualities.

There were those who for a time pight that hat singer had contracted there then they could deliver when

thought that hotsimen had contracted for more than they could deliver when they stood up and pledged themselves to Mr. Hoover in Washington last month as olutely to dispense with wheat. Judge White, of the Mariborough-Blenheim, who is shortly to become food udministrator for Atlantic City and county, said, "They didn't see how we were going to produce a satisfactory irread without the giuten quality of wheat to serve to hold the substitute flours together. Some thought we ought us said. Hoover to modify his request mak Mr. Hoover to modify his reques iters' formula.

Instead of doing that we continued to Unstead of doing that we continued to study the situation and confer from time to time on progress, taking account of the fact that today was the time appointed to cease altogether the use of wheat in the hotels in order that a great itribute purpose might be achieved. The result is all that we could have good for. We have developed a war oned for. We have developed a war oned for. We have developed a war oned for. oped for. We have developed a war wad that meets every requirement. If outlands some corn, a little barley, rye and rice flour with engs, lets of eggs, to ake the place of gluten in wheat the inding it together to prevent crumbling, t to more expensive than any bread we ave ever produced, but it is wheatless

SWEDISH CLOTHING CARDS

Limit Cotton and Woolen Goods Buy ing to Conserve Supply

Stockholm, April 15.-An order ricting dealings in hosiery, weolen and oston yarns and linen textiles of all varieties, including underwear, chil-dren's clothing and women's clothing. as been issued here. These may be sold ereafter only upon presentation of a and to be issued to applicants who es-ablish an actual requirement for the eatred article.

This measure is taken to conserve the kingdom's supply of the articles in question and to put a stop to "chain dealings," through which articles change hands repeatedly without reaching the consumer. Prices thus have been driven to extraordinary heights. The cheapest pair of children's cotton stackings obtainable, for instance, now costs fluorener (the Swedish krona is normally worth about twenty-seven cents) and

orth about twenty-seven cents) and her articles in proportion. The new order establishes maximum cless for cotton goods. The regulations How a maximum of four pairs of stock-ings for each person, four men's shirts and two sults of underwear. No pur-hasing cards are to be issued to any e who already possesses the maximum antities named.
