NEWS OF THE FINANCIAL WORLD-NEW YORK AND PHILADELPHIA STOCK PRICES

NEW YORK STOCK MARKET ACTIVE WITH MANY ISSUES ADVANCING

Assumption Is That Important Banking Pools Are Responsible for Demand-Strength Is Surprising

New York, April 18.

drawal of Liverpool Support

Brings Decline

COTTON BELT WEATHER CONDITIONS

The stock market continued to show a surprising degree of strength in this morning's trading, with many issues making advances of more than I point, and there was generally a more cheerful feeling in regard to both the apeculative situation and the war outlook than has been noted for some time past.

It was assumed that powerful banking buying has been in the mar ket at the intervals when stocks seeme dto be pressed for sale for short account, and this buying is said to have been followed by the formation of pools in many issues, based on definite knowledge of current earnings

and pending developments United States Steel was traded in on a large scale, opening at 9114 andadvancing to 92%, and the demand increased substantially as the up-

ward movement progressed. Other steel industrials made gains of around 1 point, with Baldwin

Locomotive again attracting attention by advancing 1% to 77%. Pool activities were effected in putting up American Can 1% to 44%, and there was inside boying again in Distillers, which also rose more

than I point, crossing 48. There were indications of Rockefeller buying in International Paper which ranged from 38 to 39. Other issues generally moved upward all through the first hour, there being hardly any exception to the general display of strength

News from the battlefields in France was anxiously awaited, but confidence prevailed that a change in the situation there is close at hand, *

SCATTERED SELLING ERRATIC CONDITIONS STRENGTHENS CORN IN COTTON MARKET

Trading on Very Limited Opening Quite Firm, but With-Scale-Export Demand Absorbs Cash Offers

Wheat Flour Output Increases Minneapolis, Minn. April 18.— The finneapolis wheat flour output last yeek increased 9589 harrels. The mills week increased 9589 harrels. The mills made week ending April 13 152,555 barrels against 372,775 in 1917. Today twenty mills are in operation. The flour trade for the time being is in a rut. The eastern offices of some of the larger Minneapoils mills report business as virtually at a standatill. Buyers want wheat flour, but there is little to offer on account of the exceedingly light production.
