In view of the fact that a large percentage of these donations were jeweled, and made of leather, minerals or precious stones, melting in the true sense of the word would be impossible, and while large cases of the broken and unusable valuable pieces are being sent to the United States Mint to be melted, hundreds of beautiful and costly articles, which are in excellent condition today and tomorrow at the Freeman Art Gallery, at Fifteenth and Chestnut streets, and through the courtesy of this management will be auctioned off today.

Among the costly objects that have been exhibited are rare old miniatures painted on ivory, old family heirlooms in the way of pins, bracelets and chains, diamond-studded longnettes, jeweled scarf pins and diamond studs, Sheffield plate, silver, forks, solid silver bureaus and silver trays, spoons, picture frames and silver sets. There are also gold, silver and enamel meshbags and vanity cases, Dutch silver novelties, pearl jewelry, coral and turquoise pins, chains and goodness knows what.

The auction, which takes place at 2 o'clock, is under the auspices of the committee, which includes Mrs. William G. Varden, chairman; Mrs. S. Horace Allen, Mrs. J. B. COMMITTEE ENDS WORK ON SURGICAL DRESSINGS

Organization Will Be Dissolved, Since Red Cross Can Handle Work

The national surgical dressings committee, an organization which since October, 1914, has shipped more than 20,000,000 surgical dressings to the Allied hospitals, will come to exist May 1, 1918, by order of the executive committee.

It was concluded that since America entered the war the Red Cross has increased so greatly, both in its membership and in its activities, that it is able now to supply the Allied hospitals with all necessary surgical dressings, and the committee feels that in taking this step at a time when its financial prosperity is at its height it is upholding the principles of the Red Cross in the true spirit of patriotism.

During 1917 the records of the organization show an extraordinary increase in production. The December record of 1917 shows that 666,681 dressings were sent to 225 hospitals. The total number of dressings for 1917 stands at 7,191,128, against 4,925,669 for 1916.

The work has been done by some 600 workers, only 108 of whom were paid, and according to a statement by Miss Augusta there has been a marked increase among the volunteer workers in the last few weeks, especially among French women.

Large quantities of gauze were used so rapidly that it seemed better to furnish it on a touch from it were made hundreds of all sizes and compresses. It is even said some of the women would take home the scraps of gauze at the end of the bolt so that their children could pick it apart and stuff it for pillow stuffing.

Every packet is made up in a sterilized room designed especially for the assembling of dressings, in double dust-proof paper and then in the main packs. The following is a list of articles prepared in the gauze room for the sterilizing department: 3268 compresses, 124 meter and one-half meter gauzes, 225 adhesive dressings, 66 cotton absorbent pads, 1422 tablets, 422 sarks.

Five hundred, bridge and cashmere will be played, and an attractive favor will be awarded to the winner at each table. Persons who care to make up their own tables may do so, and individuals wishing to attend will make up separate tables. Games will begin promptly at 7.30 o'clock.

Items of news for the society page will be prepared and printed in the Evening Public Ledger, provided they are written on one side of the paper and are signed with full name and telephone number of the sender. It must be possible to verify the notes. Address: Society Editor, Evening Public Ledger, 606 Chestnut street.

ESKIMO WOMEN WORK WELL FOR RED CROSS

United States Official Reports They Go in Nobly for "Drives" for Funds

Informed with a win-at-her spirit equal to that of their white sisters, Eskimo women have become enthusiastic Red Cross workers, and "drives" for funds are conducted with great zeal and success, states William T. Lemp, chief of the Alaska division of the United States Bureau of Education, who has just returned from the Northwest.

"The Eskimos' contributions represent real sacrifices," continued Mr. Lemp, "some villages, which had never saved up for several years for the purchase of a much-needed sawmill, and had accumulated \$125, donated \$100 of its scanty hoard and then procured further contributions amounting to \$38. Donations of fifty cents apiece by the children of the village school brought the total up to \$153. How did they get the money? By selling furs, cutting ivory and longhairs from the dogs' manes, and by their isolated homes they made their own money."

"Indian villages have collected as much as \$500 for the Red Cross. Hoonah, Metlakatla, Kake, Hydaburg, Klawock and Klukwan have each raised between \$150 and \$400. The Eskimo women have proved just as energetic in Red Cross classes; some making surgical dressings and knitting they have done extremely well. There is no lypthen in the Indian's Americanism."

Teachers in the Alaskan schools have done yeoman service in organizing the school children into junior auxiliaries and the women into Red Cross chapters. Miss Isabel Gilman, teacher of the school at Juneau, has been especially successful; her classes have done remarkably well.

Hunting a Husband

By MARY DOUGLAS (Copyright)

I WALKED to the postoffice this afternoon. The clock kept me company, with their steady ticking. The breeze blew the curtains, nodding toward me. But—usually Doctor Bixby's bell at 1 o'clock. I shivered as I saw him again.

"Bixby has seen him often. We have talked of many things—life and art, and death. But never love. I have seen interest in those red-brown eyes. I have even awakened enthusiasm. But beneath the enthusiasm, I have seen a cold, cold, cold Norma. I checked it off on my fingers. And I have learned more about him."

"I am going to be absolutely natural for once," I thought. "I have used all my little tricks. Now I shall be myself. Simply Sara—"

"What fun we had! The doctor threw aside his book, and he and I sat on the sofa. He looked at me with a gleam in his eye. He had just come out of the postoffice. The doctor raised his hat. 'I'm going to see Constance Dwight. Beautiful girl, isn't she?'

"I don't like her," I answered, throwing all the enthusiasm I could into my voice. "And I took the road home. I wandered about for hours. So I had failed. I had just come out of the postoffice. The doctor raised his hat. 'I'm going to see Constance Dwight. Beautiful girl, isn't she?'

"I don't like her," I answered, throwing all the enthusiasm I could into my voice. "And I took the road home. I wandered about for hours. So I had failed. I had just come out of the postoffice. The doctor raised his hat. 'I'm going to see Constance Dwight. Beautiful girl, isn't she?'
