#### DRAFT REPRISALS IS NORWAY THREAT

Christiania Government May Compel Americans to Serve in Its Army

Washington, April 25. The Government of Norway is con-

idering the dispatch of a protest to the United States against the compulsory drafting of Norwegian nationals in the military forces of this country. It was stated on high authority that the foreign office and cabinet at Christiania are likely to include in the protest a notice that Norway is prepared to put reprisals. into effect if the American Government persists in drafting Norwegian subjects

It was asserted that Norway is free to take such measures, unlike Sweden, which it is prevented by arrangements with this country. There are in Norway and the other Scandinavian countries many Americans, some of them naturalized Americans and it is understood that should Norway adopt section are will impress into her own military service Americans residing at the second countries. military service Americans residing at the present time in Norway, chiefly for

these aliens being some who have never taken out their first papers in this country.

It is indicated that the delay in the signing of the agreement between Norway and the United States has not in the least been influenced by the draft question, the whole difficulty being in regard to matters of administration.

The feeling here is growing that Germany has ret forces to work in Norway which are interfering with the ratification of the agreement, although no advices of an official character to substantiate the auspicion have been made public, it is known, however, that Scandinavian diplomats are watching developments as between Germany and Holland with the greeatest interest.
