Further substantial improvement was noted in the stock market again this morning, with the steel industrials demanding most attention. There was another wide opening in United States Steel, which, as of now as business commenced, was traded in on different sides of the crowd at 97 1/2 to 97, and after receiving to 96 1/2, ranged around 97 1/2, showing a gain of 7/8 from yesterday's final price.

Other steel industrials were also in urgent demand, partly because of the reports of conditions published in the steel trade journals, indicating that all the plants will be worked to full capacity during the current year. Republic Iron and Steel made a gain of 2 points to 8 1/4, and best advances were made in Baldwin Locomotive, Midvale Crucible and Lackawanna Steel.

There was renewed accumulation of American Can, which rose 1 point to 11 1/4. Mexican Petroleum was the most prominent feature outside of the steel group, advancing 1 1/2 to 95 1/4, with part of the buying based on the expected early production of the delayed annual report, with some buying also induced by predictions of another coming advance in the price of crude oil.

New York, May 2. — Selling by two prominent commission houses sent the market for corn off this morning after it had been steady in the early trading. Trade was comparatively light and sentiment was unimpaired. Light and sentiment was unimpaired. Light and sentiment was unimpaired.

GRAIN BELL WEATHER FORECAST: Chicago, May 2. — Selling by two prominent commission houses sent the market for corn off this morning after it had been steady in the early trading. Trade was comparatively light and sentiment was unimpaired.
