

## Remember the Tuscania!

What wouldn't you have given to reach out to one of those 208 clutching hands—to draw one of those boys back from a frightful death?

The same submarine menace still lurks in the deep.

Millions of our boys will follow across the seas. Shall we protect these troop-ships of ours—or shall we sit back like a lot of flabby, spineless slackers and encourage the Hun undersea-murderers with our whimpering, when our Liberty Bonds should be turning out destroyers, depth-bombs and patrol boats?

Come, now—would you turn your back if your son or your neighbor's son were drowning?
